Dear Amesbury Friends, Residents, Business Owners, and Colleagues,

During FY19, our City Departments worked hard to provide exemplary services to our residents and community, as you'll read on the following pages. We are fortunate to live in a community that works together to ensure the best quality of life for all of our residents, from our children to our seniors.

A lot of what we accomplished was visible to the community; you saw police and fire trucks in action, roads being paved and plowed, and schools opening their doors to our youth. But so much more was going on behind the scenes, with City employees working across Departments to make sure that we're serving our community in the best way possible.

When you see a project happening, like the continuation of the Riverwalk from Amesbury to Salisbury, what you're not seeing is the hours of work that took place to get to that point. Attend any Planning Board meeting and you'll see exactly what goes into something like this; from traffic studies to discussions about environmental impacts to elaborate designs depicting exactly how this project will fit into our landscape.

I'm fortunate that moving forward I get to lead a wonderful and dedicated City staff who works tirelessly every day on these projects, big and small, to make our community better. I'm also so appreciative of the many volunteers who serve on our Boards, Committees and Commissions. Without those people, we would accomplish so much less.

I encourage you to get involved. There is so much we hope to achieve this year and we'll be stronger as a community if more people volunteer their time and talent for Amesbury. As Martin Luther King, Jr. once said, *"Life's most persistent and urgent question is, 'What are you doing for others?'"*

If you're interested in any of the following Boards, Committees or Commissions, please visit www.amesburyma.gov for more information or to submit an application.

- Board of Assessors
- Board of Registrars
- Cable Advisory Committee
- Cemetery Advisory Committee
- Conservation Commission
- Council on Aging
- Cultural Council
- Energy Committee
- Health Care Trust Commission
- Historical Commission
- Lakes & Waterways
- Liquor License Commission
- Master Plan Implementation Committee
- Open Space, Natural Resources and Trails Committee
- Parks & Recreation Commission
- Traffic & Transportation Committee
- Zoning Board of Appeals

Over the course of the next year, I look forward to seeing what we can do together. As always, please reach out with questions, concerns or ideas for our community.

My Best,
Mayor Kassandra Gove

Community & Social Services

Amesbury Senior Community Center & Council on Aging

Mission Statement

To advocate for older adults, to identify their needs, to meet their health, economic, social and cultural needs, to encourage maximum independence and to improve their quality of life.

Annual Report FY 2019

Submitted by Doreen Arnfield, MA, LSW, COA Director

The Amesbury Council on Aging (ACOA) provides a wide range of services to the citizens of Amesbury and beyond. (See Chart 1) The primary focus is to serve seniors, age 60+, who live in Amesbury in assisting them in maintaining optimum health and remain in their homes. Additionally, those disabled under 60 are welcome to enjoy a limited amount of services and programming. Furthermore, two ACOA programs that expand beyond Amesbury is the Greenleaf Supportive Day Program; a private pay and contracted fee system and Elder Mental Health Outreach Team (EMHOT), a state funded program. These two programs support families and caregivers with mental health and chronic illness challenges.

Age	Unduplicated	Percent	
Female	3266	73.0	The ACOA was open 251 days in FY19. Average daily attendance was 42.51. Those that scanned in their key tags totaled 10,669 for the year.
Male	1209	27.0	
Below 55	129	6.1	
60-64	172	8.1	
65-69	281	13.3	
70-74	266	12.6	
75-79	263	12.5	
80-84	248	11.7	
Over 85	644	30.5	

Chart 1- ACOA participant demographics

A wide range of ACOA services include but are not limited to:

Outreach/Case Management: fuel assistance, housing, SNAP, SSDI/SSI application, mental health, food insecurity - brown bag, referrals, emotional support, SHINE, crisis intervention, 1:1 home visits, caregiver support, counseling (10,068 occurrences).

Greenleaf Supportive Day Program: Daily support for frail seniors living in Amesbury and surrounding communities, while allowing for caregiver respite; for a low fee. Facility based program runs Monday - Friday 9-3p. Structured and supervised activities and support, and on-going case management. Integration of youth and community programming with participants and volunteers. Average daily attendance is seven. Contracted with Elder Services of the Merrimack Valley and recently contracted with Commonwealth Care Alliance, Senior Whole Health and United Health Care. (2,264 occurrences)

Elder Mental Health Outreach Team (EMHOT): Performs assessment and evaluation services, connects older adults with primary care and mental health providers, and delivers brief interventions designed to return elders to their previous state of mental and social health. Valuable collaboration seen with first responders and community service providers. *(over 130 individuals served excluding family members)*

Health and Wellness: Zumba, exercise classes, yoga, massage, meditation, guest lectures on health concerns, hearing clinics, podiatry, clinical support groups – bereavement, men’s group, low vision, caregiver support, mental health, evidence based programs like Aging Mastery Program (AMP) and Powerful Tools for Caregivers, Annual Health Fair, and blood drives.

Nutrition: The ACOA is a Meals on Wheels and Congregate meals site with a brown bag program, weekly food deliveries collaborating with Our Neighbors Table, daily snacks, sponsored meals, and monthly Breakfast with the Chiefs. *(Overall approximate impact 22,845 served)*

Activities: Movies, bingo, cultural council performances, cribbage, Trips and Tours, Mah Jong.

Arts and crafts: Art classes, Iris folding, busy needles, painting, and mosaics.

Community Education: Breakfast with the Chiefs, guest lectures, outreach to community organization, Continuing education units (CEU’s) for social workers and nurses.

Internship Placement at the ACOA: Eight Interns from four colleges have served the Amesbury elder community well. *Almost 1000 hours were worked - a value of \$15,979:* Three Salem State University MSW Interns, one LMHC Intern from William and James College, Two Public Health Interns from UMass Lowell, and one Human Services Intern from Northern Essex Community College. All had approximately 10-20 clients and one macro project each that benefited the community.

Transportation: A partnership with the MVRTA to provide in-town transportation during the ACOA hours of operation. Northern Essex Elder Transport (NEET) volunteer drivers to medical appointments, taxi program through the Amesbury Health Care Charitable Trust.

Staff

The ACOA has six full-time and two part-time staff. Director, Assistant Director, Program Coordinator, Outreach Coordinator, Administrative Assistant and a grant-funded EMHOT Program Manager are full time. Two part-time staff includes, Greenleaf Social Day Activity Leaders.

Volunteers

Volunteers are our most valuable resource and crucial to the success of the ACOA. The ACOA had 127 volunteers working 7378 hours in FY19. At the nationally accepted \$16/hour rate, this translates into a **\$262,219.41 value**. Without these volunteers, the ACOA could not provide the level of services and activities that are so necessary to the well-being of older adults. In addition to traditional volunteers, 818 hours were worked through the Senior Tax Work-off Program. Hidden Gems Volunteer Spotlight showcases two

volunteers each month. The ACOA annual appreciation event is another way to highlight the invaluable work the volunteers do. The Program Coordinator continues to look for opportunities to develop a strong volunteer base.

In Kind

Services are essential to the survival of the ACOA. These can be donations, goods, time, or services. Some examples of in-kind are: donation of a piece of furniture, hearing clinics, interns, community television TV shows, a total value that was estimated for in-kind services in ***FY19 at \$143,039***. In addition, the Friends of the Council on Aging (FCOA), provides immeasurable financial supports throughout the year. These supports are not included in this report.

Strengthening Partnerships with Community Agencies to Enhance Health and Human Services to the Community

- The ACOA and The Pettengill House have worked closely to serve mental health clients (EMHOT) in Amesbury and the surrounding communities for over three years.
- Our Neighbors Table continues to prepare meals and bags of food for the ACOA to deliver to home bound elders weekly. They also deliver the monthly Boston Food Bank “Brown Bags” for the ACOA to distribute and deliver to Amesbury elders.
- The YWCA continues to teach exercise and wellness classes at the ACOA as well as participate in community events together like the Health Fair and the Homeless Count; using Interns for this project.
- Coastal Connections and Opportunity Works members volunteer as Greeters, Bingo callers, and kitchen help at the ACOA.
- The 5th annual Health Fair was bigger than ever with over 200 people enjoying the event and 40 community organizations participating.
- Northern Essex Elder Transport (NEET) continues to grow as the need grows. NEET is an important partner. As the elder population grows so too does the need for transportation.
- Empower Success Corps – Discovery Center, a volunteer placement program
- Salem State, Simmons, Northern Essex Community College, UMASS Lowell, UNH – all collaborative and ongoing partnerships that allow the ACOA to provide additional services through internship placement
- Operation Able, a job training program allows the ACOA to be a training site and work with older adults looking for a job

Clinical Services

Clinical services continue to bring value to the community and the services/resources available to the seniors and citizens of Amesbury. The Amesbury COA has agreements with several colleges: Salem State University School of Social Work, Simmons School of Social Work, Boston University School of Social Work, UMASS Lowell Public Health, William and James College and Northern Essex Community College Human Resources. It is through these great partnerships that we offer expansive clinical services and the ability to accomplish more of our macro goals. At a rate of \$16/hour, eight interns in FY19 provided a service equal to \$18,432 to the city. The ability for these interns to join the ACOA, integrate their learning into practice and provide enhanced services to our citizens is a great accomplishment. It is due to this intern program that we are able to provide an increased amount of home visits, more 1:1 care and a supportive environment. With eight interns carrying approximately 30 clients, that's about 240 elders and their families served throughout the year. The interns are also charged with one macro project. For example; one managed a snow shoveling and raking program, another participated with the YWCA One Night Homeless Count, a third created a Welcome Packet for new seniors joining the center.

Non-Elders

The ACOA services elders and their families. There are also numerous individuals who are under 60 and utilize the MVRTA transportation services, as well as join the Elder Mental Health Outreach Team (EMHOT) program. In this program they receive support, outreach and case management. There is a high demand for on-going case management in this population. The ACOA developed a memorandum of understanding with Amesbury Housing, Community Action and The Pettengill House to meet these needs.

Outreach stretches to the greater community; staff attends public and networking events to access resources, services and brings knowledge of the services to the community. The ACOA has over 80 local businesses that contribute to programing, resources and funding the FCOA.

Development of a Cohesive After-Hours Program for the Elder Community

The ACOA continues to offer a monthly dinner program at 4pm. Entertainment or education speakers have been added to the schedule. This has been a great way to bring in fun, socialization, educational events and a nutritious dinner. After hours programming may benefit those younger elders who work or enjoy later day activities. Some current after-hours programming is Lucky Ball Bingo, NAMI Support, and AA group.

Space for the Community

336 reservations were managed by the ACOA FY19 for space after 4pm and on weekends. This benefit comes with a minimal cost for Amesbury residents and free for non-profits and municipalities.

Highlights for FY19

Grants

Grantor	Amount	Purpose
Massachusetts Council on Aging	\$100,000	Elder Mental Health Outreach Team (EMHOT)
Formula Grant	\$35,760	Program Coordinator salary
Foundation Trust	\$600	Tablet programming
Central Congregational Church	\$500	Prescription Assistance program
Amesbury Cultural Council	\$1,500	ACOA Performances
Total	\$138,360	

Chart 2 – FY19 Grants Awarded

1. The ACOA received a \$100,000 grant from Massachusetts Council on Aging for FY19; only one of five in the state. The purpose of this grant is to provide Elder Mental Health Outreach Team (EMHOT) support services to older adults aged 60+, to aid individuals in living a life that meets their mental health

needs-the third year implementing this highly successful pilot program. Over 130 people have benefited with a maximum case load of 40 individuals at any given time. This grant was awarded to the Amesbury COA as the primary grantee. The Pettengill House is an important COA partner to supplement the case management needs of Amesbury and the five surrounding communities (Merrimac, Salisbury, Newburyport, West Newbury, and Groveland).

2. Formula Grant is state funded. Amount determined by the elder population in each community and based on the 2010 census. Amesbury COA was awarded \$435,760 which was used toward the Program Coordinator's salary.
3. The Foundation Trust awarded the ACOA with \$600 to purchase a one-year service plan that includes 5 free tablets by T-Mobile. These tablets will be used for general programming but more specifically for Greenleaf Supportive Day Programming to assist elders with memory loss or other chronic mental health conditions to keep their brain active.
4. Central Congregational Church awarded \$500 towards prescription reimbursement for seniors.
5. The Amesbury Cultural Council granted the ACOA with three performances this year totaling \$1500.

Implementation of the Discovery Center; a partnership with Empower Success Corps: Utilizing our community for ACOA volunteer work saves the City money and is beneficial to the individuals serving. We have become a Discovery Center site where an ACOA Transition Navigator helps those recently retired find volunteer opportunities at the ACOA or in the community. This will bring in more newcomers to the ACOA and form new connections in the community.

Greenleaf Supportive Day Program: The ACOA Greenleaf Supportive Day program has developed tremendously. Greenleaf continues to grow and support our community by aiding seniors to remain at home and independent. The Greenleaf program is contracted with Elder Services of the Merrimack Valley and also contracted with Commonwealth Care Alliance. This program has become self-sustained fiscally and has an average daily census of five. These numbers fluctuate due to weather and census. The census has remained stable. Greenleaf had revenue of about \$40,000 this past fiscal year.

Health Fair 2018:

- 58 sponsors, 283 Visitors
- 80 flu shots dispensed
- 75 blood pressures taken
- 24 massages given
- 200 lunches enjoyed
- \$5,000 raised by the FCOA

Senior and Veterans Tax Workoff Program: Twenty seniors and Veterans were placed within the city departments and worked 83 hours to earn \$1000 off their property tax. The ACOA manages this program. It requires application review, interviews and coordinating slots within the departments.

Veterans Resource Guide: Developed and maintained by the ACOA, in partnership with Elder Services of the Merrimack Valley. It is a means for Veterans and their families to access the necessary resources in a simple, easy to use format. The guide has been distributed throughout the Merrimack Valley.

Goals outlined for FY20

- 1. Utilization of Space:** Space continues to be a challenge as the elder population grows. We must remember: 10,000 people will turn 65 every day until the year 2030. The ACOA is continually looking for ways in which we can utilize the existing space and find creative ways to continue the extensive programming we currently have. As the population grows, so must we.
- 2. Continue to Develop the Greenleaf Supportive Day Program:** Assisting caregivers to find respite while providing a safe place for their loved ones, to socialize and engage in meaningful activities. The Greenleaf program allows elders to stay in their homes with their families longer.
- 3. Acquire a ACOA van:** Transportation is a challenge for many elders with long wait times and inconvenient availability. Isolation is a serious health concern. Allowing seniors access to transportation by utilizing a local van that can accommodate the needs of the seniors, is a way to combat isolation and reduce the anxiety of finding a ride.
- 4. Name change:** Ageism is prevalent throughout the United States. There is a stigma attached to being old and often times an elderly person will hesitate to join the center because it's looked upon as something negative. Language is important. In an attempt to draw younger seniors toward the center and encourage the older elders in, a fresh name change may change the perception of the center.
- 5. Replace signage:** Many people have a difficult time finding the ACOA. The building is set back from the road and the signage is difficult to read. Replacing the existing sign and adding signage by the footbridge will help people find the center

Amesbury Public Library

Erin Matlin, Director

“Any book that helps a child to form a habit of reading, to make reading one of his deep and continuing needs, is good for him.” — Maya Angelou

FY19 was a year of Thank You's! We did a lot this year and it is thanks to so many people.

Big thank you to our DPW for doing a wonderful job replacing our main reading room ceiling.
It looks great! (Feb. 2019)

Thank you to Freddy Roman (from: *The Furniture Repair Shop & Roman Architectural Millworks*) who is working on restoring our front doors. We are so excited for the outcome!

Thank you to our staff and patrons for your patience
on the continued projects and exploration of change of space.

Library Goals for FY20

- Add a public fax machine
- Upgrade our patron printing
- Revise and update our Long Range Plan
- Continue to add new and exciting programming
- Continue to work with organizations in Amesbury to improve our outreach and services
- and so much more!

By the Numbers:

- Museum Passes Used – 1,050 (saving area families over \$21,000 in admission costs)
- Patron Visits – 77,116
- Total Circulation – 113,451
- Library Programming offered: 341 programs, patron attendance: 5,671!
- Reference Questions Answered:
 - Children's Room – 3,766
 - Adult Reference – 7,534
- Overdrive Downloads – 12,926 (*an increase of over 67% from FY18!*)
- Patron Internet Hours Used – 1,185

We encourage every member of the Amesbury community to stop by the Amesbury Public Library and see what we have to offer! It is never too late to get your library card!

We welcome you to visit our website www.amesburylibrary.org, and follow us on

Youth Services / Youth Recreation Department

Kathleen Crowley, Director
Jimmy Olsen, Asst. Director

The goal of Amesbury Youth Services is to provide cultural, educational, recreational and physical opportunities to the youth of our community, and to manage the programs in a safe and healthy way. Amesbury's summer recreation programs for July and August of 2018, served over 1,456 youth in FY2019, employed over 63 staff, and instructed 41 counselors in training. Additionally, youth services offered over 45 summer program opportunities, including many new programs such as: 4 in 1 Robot, Action Movie Flix, Arcade Electronics Galore, Crazy 3D Creatures, Delicious Desserts, Disc Golf and Ultimate Frisbee, Expert Architects, Imagination Flix, Kids Paddleboard Yoga, Stand Up-Paddleboard, Outdoor Challenge, Sports Conditioning, Street Hockey, and Wilderness Survival Week.

The Provident Community Foundation provided Amesbury Recreation with \$5,000 in grant money for youth summer scholarships. Amesbury Youth Funding provided an additional \$2,000 for scholarships. In addition, we received over \$2,000 in monetary donations from the community. These scholarships and donations allowed over 50 youth in Amesbury to attend our summer programs who could not have otherwise afforded to enroll. Other summer grants included an award of \$2059 for a "Youth Summer Jobs Grant" and a \$700 award from Amesbury's Cultural Council for a performance by the Plum Island Steel Drum band as part of Amesbury Days Kid's Day in the Park.

Amesbury Youth Services Provides

- Elementary Before and After School Programs are offered to keep children safe and active and provide care for the children of the many working families in our community.
- Middle School After School Adventure Program participated in community service, raking leaves for seniors, picking up trash in the community, and clean-up day at Camp Kent Nature Center. They were able to go on many field trips, including touring one of the Tall ships in Newburyport.
- February and April vacation programs were offered during school vacation week for all elementary and middle school children.
- Camp Kent Nature Center (Summer Nature Program, Low Elements Project Adventure Course, Kayaking, Sailing, Rowing, Archery, Family Programs, Camping and Bird Watching). The CK Summer program consisted of participants in small groups with their peers enjoying a variety of environmental science, outdoor skills, and adventure learning activities. Each week children in grades 3-7 were offered a hike up Powwow Hill with a free cookout, water view and Eagle watching, a paddle day to the beach in kayaks, dories and canoes, and weekly visits from wildlife specialists. In addition, programming included a low elements challenge course, archery, kayaking, fire making, Dutch oven cooking and GPS navigation. Grades 1 and 2 were offered ponding and insect collection, wildlife presentations, animal tracking, dory rides, and scavenger hunts. This year we offered Wilderness Survival week to include directional navigation, shelter building, survival skills map reading, fire building, and outdoor safety.
- The Counselor in Training Program is offered for 14-15 year olds to participate in the Preschool, Park, Theater, Tennis, Swimming, Boating and Camp Kent programs. CIT's offer assistance to staff and receive community service hours as well as training to become future counselors. CIT's need to provide a reference letter and to be interviewed for their position. A 3-day leadership training for the CIT's was held with a

record high of 41 participants.

- Lake Gardner Lifeguards were on site daily from 9:30am- 5:30pm, for up to 200 beach patrons per day.
- Summer park, preschool and teen programs included field trips to Aquaboggan, One Stop Fun, Pawtuckaway State Park, Franklin Park Zoo, Boston Children's Museum, Tuba Sliding at Ski Ward, Boston Bounce, Vertical Dreams, Boda Borg Questing, Funtown Splashtown, Roll On America, Skyzone, CoCoKey water park, Fisher Cats baseball game, Gillette Stadium Hall of fame, and Canobie Lake Park.
- Amesbury Days, Kid's Day in the Park featured a Teddy Bear Parade, fun stations w/ prizes, free giveaways from local businesses, a steel drum band, bouncy houses, Flatbread Pizza donation, free ice cream from Hodgies, free Snocones/popcorn and a Theater in the Open Performance.

By the Numbers

- No taxpayer dollars are used for any of the youth programs.
- Amesbury's summer camp "Park Program" (including field trips, entertainment and theme days) were offered at \$5.33 per hour. This was the least expensive program in the area.
- Amesbury Recreation received over 120 permits for facility use, an increase of 35% from last year.
- Amesbury Youth Recreation served over 1,640 youth last year which was an increase of 10% from last year.
- Amesbury Youth Recreation secured \$2000 in donations and \$9,059 in grants for a total of \$11,059 received.
- Amesbury Youth Recreation provided \$25,895 in financial assistance for summer and after school scholarships to over 50 Amesbury families. This is a 42% increase from the previous year.
- Amesbury Youth Recreation had 41 summer Counselors in Training, serving 2,018 volunteer hours.
- Amesbury Youth Recreation registered 2,451 families at amesburyrec.com, the online registration program the office utilizes.

Department of Veterans' Services

Kevin Hunt, Director
Jeremiah Murphy, Associate Director

Amesbury Veterans' Services provides financial assistance to eligible veterans and their dependents, and assistance with application and appeals of all pension and compensation claims through the Department of Veterans' Affairs. This office maintains partnerships with state and local service providers in the areas of education, employment, substance abuse treatment, and mental health in an effort to address the unique needs of generations of veterans.

In July 2015, Amesbury Veterans Services joined with Newburyport, Salisbury and Merrimac Veterans Services as part of an Inter-municipal Agreement providing Veterans Services to the members of those respective communities. The combined effort has strengthened the individual departments by combining overlapping responsibilities, as well as providing additional funding for centralization and additional personnel.

In 2019, over \$367,000 was provided to Amesbury veterans and their families through the state-sponsored Chapter 115 program. This program provides financial assistance to Amesbury veterans whose incomes fall below 200% of the federal poverty level. In addition to providing supplementary income to needy veterans for living expenses and fuel costs, these benefits provide reimbursement for insurance premiums, dental procedures, Medicare Part B and D premiums, co-pays, medications, and various medical expenses not covered by health insurance. **Seventy-five percent of all this Chapter 115 money is reimbursed to the City of Amesbury by the State.**

Additionally, the Veterans Officer provides assistance in establishing disability claims, pension benefits, requests for paperwork, or intercession with and to the Department of Veterans' Affairs. It also oversees the placement of a flag every Memorial Day at the graves of the 2,500 veterans buried in Amesbury cemeteries. The Veterans Office is located on the second floor of the Nicholas A. Costello Transportation Center, 68 Elm Street, at the same location as the Amesbury Council on Aging.

Amesbury Public Schools

Amesbury School District

Jared Fulgoni, Superintendent

Amesbury Public Schools' Mission Statement

“The Amesbury School District is unconditionally committed to every child, ensuring that all students experience success through the development of attitudes and skills necessary for lifelong learning by providing the highest quality staff, meaningful learning experiences, and a vitally involved community.”

Introduction

This year the Amesbury Public Schools refocused its efforts on the academic achievement of its students. The Middle School with the assistance of the State developed a comprehensive turn-around plan. The Special Education Dept., led by Dr. Catarius, provided much needed professional development on inclusive practices, and developed student specific programs to better serve our most at-risk populations. These efforts paired with a dedicated faculty and staff resulted in significant gains in student achievement as measured by the MCAS tests.

The staff of the Amesbury Public Schools are proud of the accomplishments of our students, whether it be in academics, on the athletic fields or in service to others throughout the community. It is our belief that if you demonstrate care and compassion for students, then the students will emulate that behavior towards others. These beliefs are ingrained in the work that our staff does every day. This belief, paired with the drive to provide every student the highest quality education possible, allows the children of Amesbury to continue to grow and achieve.

We continue to appreciate the support of the Mayor, other elected officials, public safety professionals, and the strong partnerships between the Amesbury Public Schools and our many community service organizations. This ongoing support and partnership has allowed the School District to increase its services to students including: full day kindergarten, language based special education programs, a middle school math coach, and the addition of a much needed Director of Facilities.

This past year the School District continued to design and refine the educational program for the new Amesbury Elementary School. With the generous support of the community the new K-2 school will find its home next to its sister school on the Cashman School site. Thank you to all those in the City of Amesbury who came out and worked tirelessly to support the school.

Student Achievement

As a result of the renewed focus on student achievement and the combined efforts of the faculty/staff, administration and students the school district saw a marked improvement on the MCAS.

- Overall the district saw an increase in its percentage of possible points from 45% in 2018 to **79% in 2019!**
- Overall the District was rated as making “substantial progress towards targets”
- All Schools were rated individually as making “substantial progress towards targets”
- The Middle School increased its percentage of possible points from 11% in 2018 to **86% in 2019!**
- The Middle School percentile rank rose from 19th percentile in 2018 to the **41st percentile in 2019!**
- The Middle School exceeded their targets in **16 out of 22 categories** and **met or improved targets in 20 of the 22 categories**

Curriculum and Professional Development

Amesbury Public Schools continues to use the *Understanding by Design* (UbD) framework as a process to re-envision, align, and integrate social emotional learning competencies in the Pre-K-12 curriculum. There are three stages to the UbD curriculum design process: in stage one, teachers consider goals, examine established content standards, and review curriculum expectations. In stage two, teachers consider the assessment evidence needed to document and targeted learning outcomes will be achieved. Finally, in stage three, teachers design lessons and units to align to established goals.

During the 2019-2020 school year, the focus is at stage three, the instructional level. All of the district's professional development days will be focused on three areas: ensuring high expectations for all students; using a wide variety of instructional strategies to meet the needs of all learners; and using assessment to track student growth and inform daily instruction. One way Amesbury teachers are creating high expectations for students is by creating Student Learning Objectives for every lesson. Student Learning Objectives (SLOs) along with success criteria, ensures a focus on student learning and encourages teacher reflection about the influence of their practice on student learning. In addition, Amesbury is working with Seaside Educational Consultants towards implementing and utilizing a wide variety of instructional strategies to meet the needs of all learners. Finally, Amesbury teachers are using both formative and summative assessments to inform instruction, to monitor student progress, and to provide appropriate and timely interventions.

Simultaneous to this district-wide focus are building-based initiatives. The elementary schools continue to ensure there is both a horizontal and vertical alignment to the standards and to have common agreement about the scope and sequence of the curriculum at both schools. In addition, the two schools are currently assessing the literacy program. The middle school will implement its Turn-Around Plan - a plan developed in response to its designated status of being a school in need of targeted assistance by the Department of Elementary and Secondary Education. In an effort to narrow the achievement gap between all students and students who are high needs, the middle school will also be working with Seaside Educational consultants to address the middle school's four priority areas: 1) leadership, shared responsibility, and professional collaboration; 2) intentional practices for improving instruction; 3) student-specific supports and instruction for all students; and 4) school climate and culture. As part of the Turn-Around Plan, the district hired a new math coach, and is focusing on creating a Science, Technology, Engineering, and Math (STEM) pathway. In addition to the curriculum work at the classroom level, the high school will continue to explore offering more elective options as well as explore more pathways (including STEM) to career readiness through its partnerships with area colleges and universities.

Ultimately all curriculum work and the professional development to support it, is to ensure Amesbury Public School students have access to a rigorous curriculum and are provided with equitable supports on their paths to growth, success and achievement.

Amesbury Elementary School

Thank you to the community for supporting our new school. We are very excited about the opportunity of coming together with the CES family and building an elementary campus! As you will see in our update, we have already begun strengthening our community in order to ensure that our elementary campus is a safe environment for all students and staff.

AES staff and students have had a great start to our new year. As a school, we are working to recognize those students who are consistently making positive choices on a daily basis. We believe these students are role models and leaders for all of us. The AES student council is back up and running and will consist of students in fourth grade who are ready to lead our school in events and activities throughout the year. Those students who demonstrate leadership qualities will be asked to join the student council. AES staff are also making Positive Office Referrals in which AES students are recognized for being model students on a daily basis!

We have had two All School Meetings focusing on respect, kindness, and empathy. We honored the team from AES who received the Stroke of Genius Award for our Food Rescue Program and on October 3rd, we wore blue for Acute Flaccid Myelitis (AFM) Awareness Day. Noah Holt, a kindergartener at AES, was diagnosed with AFM five years ago and as a community, we celebrated his accomplishments by wearing blue, donating \$282 to the Transverse Myelitis Association (TMA), and participating in an All-School Assembly!

As the year continues, we will focus on Social Emotional Learning by developing rules, routines, and expectations at AES in order to promote a positive atmosphere. We will continue to recognize those students who model respectful and kind behavior on a daily basis. During the last week of October, we will celebrate kindness.

Daily attendance is essential to student progress. If students are not here, they will not learn. In order to support those students who are having a difficult time getting to school, we are working as a staff to put supports in place for those individual students. All grade levels are also participating in a grade-level weekly attendance challenge in which the grade level with the best attendance is recognized by getting the playground on Friday during morning recess. We hope this encourages students to work together and come to school.

We are working hard to get our students to school, and once they are here, we strive to give each student the education they deserve! This year we are focusing on strengthening our Tier 1 instruction by ensuring that every

lesson we deliver contains effective lesson components which include a measurable lesson objective and on-going assessments of learning. We know that it is essential to students' progress that our children understand their learning goals and how to achieve these goals. Through ongoing professional development, educators are learning teaching strategies that will raise the level of engagement in our classrooms. AES has also implemented an intervention block at each grade level in order to support those students who are in need of more intensive instruction. Dr. Catarius assisted in leading our third and fourth-grade teams in the analysis of our MCAS scores, and we used this information to target our daily instruction; including those intervention blocks.

Other AES Happenings:

- We had a very successful Fall Curriculum night on September 10th welcoming our AES parents to learn about their children's day and the curriculum.
- Thank you to our PTO for another successful Fun Run Fundraiser!

- Our first grade went on their annual trip to the Topsfield Fair. Thank you to The Larner Foundation for supporting this trip and especially to David Costello.
- Our second-grade classes went on a field trip to Camp Kent. While on the trip students visited four science stations focused on Ponding.
- On October 1st, students paid \$1.00 to wear pajamas. Donations will support Leukemia research.
- Amesbury Rotary Club continues to support our students through the gift of dictionaries to each of our third graders.
- Our very own Kindergarten Class has entered the Amesbury Scarecrow Contest.

Cashman Elementary School

This has been a great start to the year at the Cashman School. We opened our 2019-2020 school year reinforcing and expanding the implementation of PBIS (School-Wide Positive Behavior Intervention and Supports) as a system of tools and strategies for defining, teaching, acknowledging appropriate behavior, and correcting inappropriate behavior to address our children's progress, both academically and socially and emotionally. Knowing and practicing expected behaviors in each of our school settings, allows children to be more self-regulated and available for learning. This is a framework for creating customized school systems that support student outcomes and academic success. One of the true joys in education is watching the students' delight as they master a new concept or learn about a fascinating topic. I hope that you, too, have seen this enthusiasm as your children develop new skills and friendships, wrestle with new ideas, and conquer fears.

Both students and staff benefitted from our district-wide focus on Social-Emotional Learning past years and being able to merge it with our implementation of the PBIS system and provide a rigorous academic setting where children feel safe and secure. We are witnessing the beginning of a new era as we provide systematic teaching to students in these important competencies; Self Awareness, Self-Management, Social Awareness, Relationship Skills, and Responsible Decision Making. Hearing students not only utilize complex vocabulary but identify strategies to use in difficult situations has been one of the most rewarding parts of our school year. Students and staff alike have also seen a subtle positive shift in our school climate, with an increased awareness of mindfulness and a calmer, more self-controlled student body. Children who are calm and feeling safe are able to engage fully in learning and achieving! We look forward to continuing this trend next year with more work in this area!

We strive for excellence in all we do. The challenges faced by our families today require that we seek innovative and creative solutions to provide all that our students require in order to achieve at high levels and ultimately to ensure college and career readiness. Cashman teachers work in professional study teams to examine student data and provide interventions that will keep them moving forward toward well-articulated goals. Children regularly receive interventions or supports in the areas of literacy, writing, and mathematics. These supports provide individualized and small group instruction as needed in addition to the foundation education provided for all students. Our educators consistently reflect on the needs of our students and work to anticipate needs. In this way we are able to prevent failure and increase success. It is our research-based belief that we will best be able to achieve this goal by working in the ways mentioned above. By working thoughtfully and reflectively as a professional learning community will enable us to continue to develop the capacity of both our students and our faculty to achieve at high levels.

The Cashman School Fourth Grade Celebration of Cultures Immigration Dinner is held each spring in the cafeteria and gym. The specialist teachers, with the help from fourth grade teachers and staff volunteers, put on a dinner for fourth grade students. All of the food is provided by the parents of the students.

Cashman students are steeped in the Amesbury community. Children participate in trips and community action projects that encourage growth in citizenship and stewardship. They learn how to care for the community and

how their community cares for them. Every year the community, police and fire departments, and local businesses, come together with the schools for the Be a Buddy NOT a Bully program. Every year our Student Council, led this year by Mrs. Lovett and Mrs. Leary, engage the whole school in projects such as food drives for Our Neighbor's Table and the Shining Stars program that help children become the involved and contributory citizens of tomorrow. Children work with the senior center on projects during the year and we participate in the Senior Tax Write-Off Program each and every year. Mr. Fetters leads students in the Jr. Relay for Life. Last year Cashman children raised thousands of dollars for causes that will make the world a better place to live. More proof that as Nelson Mandela said, "Education is the most powerful weapon which you can use to change the world."

Cashman School and the district continue to benefit from a Check & Connect Grant. This program is a model of ongoing, systematic intervention and support to promote students' engagement at school and with learning.

Each student participating in Check & Connect is assigned a mentor. Check & Connect mentors seek to build long-term, sustained relationships with participating students that will connect them with their school and help them make academic progress.

Key Features of Check & Connect

- **Preventive:** Check & Connect focuses on watching for signs of withdrawal and providing timely interventions to keep students engaged.
- **Builds Capacity:** Check & Connect works with students to build new skills such as problem solving and goal setting.
- **Efficient and Adaptable:** Check & Connect builds on existing programs, services, and resources within the home, school, and community.
- **Provides Outreach:** Check & Connect creates long-term trusting connections between schools, youth, and families.
- **Individualized:** Check & Connect uses a systematic and organized approach, focusing on the needs of each individual student.

Check & Connect was made possible by a very generous grant funded from AEFI and the Newburyport Five Cents Savings Bank!!

Amesbury Middle School

This year's annual report is dedicated to Amesbury Middle School Turnaround Team for their efforts and hard work in developing our school turnaround plan as required by the state. Team members include: AMS teachers Kate Bernardoni, Megan Butler, Kerin Byrne, Jennifer Ghezzi, Catherine Jackson; AMS Parent Katherine Richard; AMS Administrators Elizabeth Martignetti, Katrina Randall and District Administrator, Lynn Catarius. This team was formulated in response to the school's recent accountability designation as due to MCAS 2.0 state testing results. Massachusetts revised its accountability system due to the revised federal requirements based on the results of the new Next Generation MCAS 2.0 computer-based testing. An accountability system measures school and district performance. It helps schools improve the performance of all students and helps communities and the state decide how to allocate resources. Accountability results answer two questions: *How is the school doing?* and *What kind of support does the school need?* There are several different indicators that schools receive, points based on the testing results. These indicators are: Achievement, Student progress or growth, High school completion, Progress towards English proficiency for English learners, Chronic absenteeism and Advanced coursework completion. Amesbury Middle School was classified as a school requiring assistance or intervention for our *High Needs Subgroup* student population.

Over the course of school year this team was charged with identifying the root cause of why students were not progressing as well compared with the same students across the state. Once identified, the team spent from January – June 2019 developing a Turnaround Plan based on in depth analysis and conversations relative to student learning and practices. Team members spent 60 hours meeting, discussing, and writing the plan that is required by the state to address this subgroup population. In the end, a 42-page plan was completed and sent into the state for review on June 27, 2019. This comprehensive 3-year plan will guide the school in its efforts to improve student learning and teacher instruction.

2018-2019 Educational / Cultural Highlights

- Amesbury Middle School in 2019 achieved a **51.9% growth in ELA** which was an 11.5% increase from 2018 and 61.6% growth in Mathematics which was an 18.4% increase from 2018. The AMS percentile rank rose from 19th percentile in 2018 to the 41st percentile in 2019. We exceeded our targets in 16 out of 22 categories and met or improved targets in 20 of the 22 categories. All of this improvement is due to the hard work achieved by both students and staff.
- On September 25, 2018, eighth grade students through the efforts of AMS Physical Education teachers, TJ Baril, Luke Alley and Judy Burke in collaboration with the Plum Island Kayaking Company provided students with two unique physical outdoor activities of kayaking and paddle boarding on Lake Gardner.
- In November 2018, Amesbury Middle School student Project 351 Ambassador was eighth grader Sebastian Boisvert. As a result of his selection, Sebastian attended this year's kickoff event on Saturday, January 19, 2019. Throughout the year Sebastian participated in a variety of statewide community serve initiatives. A Project 351 Ambassador is an 8th grade student selected by his or her school for their exemplary ethic of service and demonstration of Project 351 values of humility, compassion, kindness, and generosity of spirit. One student Ambassador is selected for each town in Massachusetts.

- Amesbury Public Schools had four teams compete in this year's Destination Imagination regional tournament, which was held on Saturday, March 16, 2019. Our 6th and 7th grade Improve team, composed of Ruby Moulton, Alice Moulton, Jack Nachtygal, Ayantu Porter and Natalie Welling, took first place in their challenge and competed at the State Tournament at WPI on March 30th. Our combined 5th, 6th, 7th and 8th grade science team, Medical Mystery composed of Eli Blouin, Tyler Wilson, Ethan Manclark, Jacob Hoffman, Noah Blouin, Noah Tebou and Truman Yee, took 3rd place in their challenge with a perfect Instant Challenge score. Two other teams came in 4th place (Chaotic Neutral, science challenge: Natalie Ward, Penny Miller, Erin Courtemanche, Grace Galfetti, and Thomas Miller) and 5th (Loosey Goosey Lemon Llamas, technical challenge: Samantha Porter, Corinne Welling, Ashley Wilson, Sadie Bolth, and Cambyr Sullivan) in their challenges.
- On March 30, 2019 Destination Imagination 6th and 7th grade Improve team, composed of Ruby Moulton, Alice Moulton, Jack Nachtygal, Ayantu Porter and Natalie Welling, took 5th place in their challenge at the State Tournament at WPI on March 30th. At the tournament this team had the highest instant challenge score for their challenge and grade level.
- On May 10, 2019 Amesbury Middle School Teachers Stacey Fijalkowski Kate Bernardoni, and Susan Olsen were awarded over \$6,000 in innovative grant money from AEFI as a result of two different grant proposals they had submitted.
- Eighth grade students Solace Yee and Matthew Walsh were selected as AMS Scholar Leaders. Both Matthew and Solace along with their families attended a dinner at the Best Western Royal Plaza Hotel and Trade Center in Marlborough, MA.
- Diana Huber, AMS Secretary, 21 years of service retired from her position at the Amesbury Middle School.

2018-2019 Community Highlights

- In November 2018 the AMS Student Council, under the direction of AMS Teacher, Michael Wesolowski sponsored our annual Food Drive which brought in over 1,000 food items for families in need in Amesbury. In addition, the AMS Student Council also sponsored a schoolwide rally day for students and staff that was held on November 21, 2018 that brought the entire school together.
- On January 10-12, 2019 Amesbury Middle School Drama Club presented Disney The Lion King Jr. Over 64 students participated in this year's musical performance. The AMS Drama Club advisor is Mary Ellen Shirshac.
- On May 24, 2019, AMS C.A.R.E./Ascend to the TOP program benefitted over 100 AMS students who earned the opportunity of hiking Mt. Major for their positive school contributions throughout the school year. This program is part of our school wide Positive Behavioral Interventions Support initiative. Mrs. Bernardoni, AMS Art Teacher, is in charge of organizing this trip and all school wide assemblies that supports social, emotional, and behavioral competence for the entire school community.

Amesbury High School

Amesbury High School is a small high school serving grades 9 through 12. At the end of the 2018-2019 school year, there were 536 students enrolled at AHS with an average class size of 20. AHS has 46 full-time teachers, all of whom are highly qualified, with a student to teacher ratio of about 12 to 1. Over the past few years, both staff and programming at Amesbury High School has been restored. The FY19 Budget allowed AHS to maintain the same level of staffing as the previous year. Our Program of Studies continues to provide a variety of courses and levels for our students. School year 2018-2019 included an expansion of our Early College partnerships. In addition to our long-standing relationship with NECC, we initiated a new partnership with Southern New Hampshire University (SNHU). Overall, there were 150 students in grades 10-12, who earned between 3 and 6 college credits in one year, while simultaneously earning high school credit. The 2019 Spring MCAS results show that AHS met 74% of its improvement targets and received an accountability percentile of 76%. This has resulted in Amesbury High School being classified as making substantial progress towards targets. ELA and Math MCAS, given to sophomores, were administered on computers and were scored differently this year. Despite these significant changes, the number of AHS students meeting or exceeding expectations in ELA was 10% (meeting) and 12% (exceeding) higher than the state average and 10% (meeting) and 4% (exceeding) higher than the state averages in Math.

The culture at Amesbury High school is one of collaboration. Students and staff work together both academically and co-curricularly. The staff of AHS is heavily invested in our students and is truly dedicated to all of them. Many teachers make connections with students outside of the classroom and volunteer time, going to school events, advising, chaperoning, and “going the extra mile” to be sure the school experience is a positive one for every student. Our students take pride in their school, their activities, and themselves. The AHS students are proud of the Gold Student Council Award they have received from the Massachusetts Association of Student Councils (MASC) for eight consecutive years. The AHS Student Council continues to coordinate and lead many of the programs of the school. They enjoyed their fifth year sponsoring a Unified Special Olympics Bocce team, and were recognized as a Unified Champion School, for their efforts in promoting a culture of acceptance and caring. They lead our spirit programs and coordinate student government. Students in the numerous co-curricular activities truly work to create a positive and inclusive culture at Amesbury High School. Approximately half of our students participate in athletics and co-curricular activities, providing them with a sense of belonging and connection to AHS. Many of our student-led events involve the community including Soup Night, Mac N’ Monday, and the Turkey Challenge, to name a few. There are several honor societies where students are recognized for their high achievement. The math and science teams have consistently earned recognition for their performances in league events. The Robotics Program continued its fifth year and includes several students from the Sparhawk School. The school newspaper continues to be published every week, and has been since 1979, while the yearbook continues to be the best in the area, often receiving national recognition. All of these accomplishments are achieved through student leadership and facilitation by high school staff members. The majority of students participate in at least one of the co-curricular activities or athletics.

The culture at Amesbury High school is one of collaboration. Students and staff work together both academically and co-curricularly. The staff of AHS is heavily invested in our students and is truly dedicated to all of them. All of these accomplishments are achieved through student leadership and facilitation by high school staff members. The majority of students participate in at least one of the co-curricular activities or athletics.

Amesbury High School continues to expand its partnerships with community agencies. There is cooperation and collaboration with other town departments and community agencies to provide support for all families. The AHS Interact Club partners with the Amesbury Rotary Club on several projects including Pennies for Polio. All juniors are invited to participate in the Credit for Life Fair, sponsored by the Institution for Savings, which provides a practical, real-life financial experience where students select a profession, receive a salary, and attempt to make financial decisions based on their income. Partnerships with local institutions of higher learning provide students with additional chances to graduate from Amesbury High students are offered numerous opportunities to earn both high school and college credit. Several AHS classes are articulated for credit with North Shore Community College (NSCC). For the past ten years, AHS and NECC staff have worked together on an Early College (EC) Program. This year, we added SNHU to the EC Program. Students enroll in the EC Program as sophomores where they take English with NECC and History with SNHU. In their junior year, students take both English and History with SNHU. Senior year, students take English, Composition 1 and Composition 2, through NECC. During the second semester of their senior year, students have the opportunity to earn additional college credits on the NECC campus, adding to the total number of credits earned in the Mass Transfer Block. Several EC students have entered college with enough credits to be categorized as sophomores when they enter their chosen institution of higher learning. Opportunities and support are provided for all students to reach their highest individual academic, social, and civic achievement.

Amesbury High School is committed to inspiring all of its students to become problem solvers who take responsibility for themselves and their learning. In fostering this quest for excellence, the AHS community will support and work together with integrity, modeling acceptance, collaboration and respect. School pride permeates the culture of AHS through time tested traditions blended with student driven innovations and initiatives.

Amesbury High School students continue to show high achievement, receiving recognition through the National Merit Program. One hundred and twenty-one students graduated in Landry Stadium on June 7, 2019. Sixty different students received scholarships totaling \$151,900.

Class of 2019

Type of School / Opportunity	Percentage of Students	
Four year	80/121	66%
Two year	23/121	19%
Military	6/121	5%
Work	9/121	7%
Other	3/121	2%

Amesbury Innovation High School

After 4 years of implementing and perfecting a variety of new innovative practices at the Amesbury Innovation High School, we are adding several new practices this year. The small size of AIHS allows us to deftly and quickly introduce new procedures and policies that would take much longer to roll out at a larger school. Students prove time and time again that when staff raise expectations, students are willing and ready to meet them. The academic and therapeutic progress displayed has been profound; a huge factor in this success is our staff retention rate, which is one hundred percent for the fifth year in a row. The culture at AIHS continues to be a supportive and joyful one, and students and families continue to report their overwhelming support for our school. They are very appreciative for the opportunity to be a part of the program!

For the first time we are overenrolled and have a waiting list of students who want to attend. The application process has allowed us to make certain that the program at AIHS is a strong fit for anyone wishing to attend; it also creates a sense of confidence for accepted students. Students feel that they have earned a spot in our school, making them invested members of our community.

Another indicator of the success of AIHS is the fact that the **Class of 2018 all applied to and were accepted into college** - this was a first for AIHS and we are quite proud. Many students who enroll at AIHS have very little hope for themselves - graduating from high school feels like a gargantuan task, much less attending college. Even if all do not attend, to go through the process of application and acceptance is invaluable to their senses of self-accomplishment.

For the fourth year in a row, 2018 sophomores had a 100% MCAS pass rate - this speaks to faculties abilities to differentiate instruction for all students. We have a full inclusion setting, at AIHS, with over half the students on education plans. Through creative and flexible scheduling, we are able to meet the needs of students on a daily basis. We assess students regularly in the classroom and use MAP testing data from the start and end of the school year to assess strengths and weaknesses of the students to fine tune teaching to each student. MAP data combined with our ever-developing Social and Emotional Learning-infused curriculum, Trauma Sensitive Practices, and Restorative Justice disciplinary process creates a very well-rounded education that emphasizes the *whole* student and prepares them for their futures.

The Work Study Program continues to provide opportunities for students to practice the Social and Emotional skills they acquire in school in real world settings. The majority of students have paying jobs; we also have several students participating in internships at the Cashman and Amesbury Elementary schools working with teachers and assisting in classrooms. Also, there are more students than ever participating in clubs and sports teams at Amesbury High School, including: Newspaper, Cross Country, Drama Club, Chorus, and Football. We are currently working with a senior from AHS to bridge the gap in extracurricular activities between AIHS and AHS.

As for new programming and projects at AIHS, we are pleased to announce a Recovery ELA program for those students in the district that are in need of ELA credit to graduate from high school. We have reached out to

students who have either dropped out or are at risk of dropping out and have created a partial day program so that they can gain the credit they need to earn a high school diploma. We are looking forward to seeing the success rate of this program. If our recovery ELA program is a success, we hope to add a recovery math program.

This year we have implemented a schoolwide goal: schoolwide Reading and Writing Norms in all classes. Students are responsible for a new grammar standard each quarter. Our goal is to eliminate common grammatical errors by reinforcing these rules in every class, every day, consistently. Again, if we set the expectations and make the change school-wide, we have found that students step up to those expectations with ease.

Lastly, AIHS received an AEFI grant last year to restore the Amesbury Riverwalk with new signs and kiosks. There are eight students directing the project. They are creating ideas, contacting community members, and communicating with companies to complete this project.

Amesbury Innovation High School continues to excel at meeting students where they are and helping them to develop their academic, social and emotional skills so they can graduate from high school with confidence and be prepared for the world!

The accomplishments of the Amesbury Public Schools is a result of the hard work and dedication of the teachers, staff, parents, students, and community. I wish to thank all those who contribute in so many ways to our success. It is sincerely appreciated.

- Jared Fulgoni, Superintendent

Public Safety & Inspection Services

Amesbury Police Department

William A. Scholtz, Chief of Police

As the Chief of Police, I am again honored to present the Police Annual Report for FY19. And again, I would like to thank the entire community for its continued support throughout the past year. It has been a pleasure to work with and serve such a great community!

As I've stated many times since becoming Chief, I am fortunate to have taken command of a very dedicated, professional and compassionate group of people. I commend the men and women of the Amesbury Police Department for their hard work, tireless efforts and commitment toward making Amesbury a great place to live, work and visit. Again, their commitment is abundantly obvious in not only their on-duty time, but also their off-duty involvement as coaches, committee members and civic organization members as well!

In 2019, we had four officers leave the Department. Officer John Lannon took a position with the Massachusetts State Police, Officer Tom Hanshaw retired after 37 years of service, Officer Larry Bybee retired after 20 years of service, Officer Jason Kookan retired after 18 years of service and Sergeant Richard Poulin is scheduled to retire in early 2020. Fortunately, over the last few years we have bolstered our reserve force and were able to move part-time officers into full-time positions quickly, reducing overtime and training costs. Unfortunately, these part-time officers will have to attend full-time academies before they can be permanently assigned and two are scheduled to attend beginning in January. The reserve force has also allowed us to assign the officers to the School Resource Program as I've indicated. As we begin 2020, we will again have to hire new part-time officers and we have already begun that process with a written exam this past September.

Starting January 6th, Executive Officer, Lt. Craig Bailey, will be assigned to attend the FBI Academy for ten weeks. Leaders and managers of state, local, county, tribal, military, federal, and international law enforcement agencies attend the FBI National Academy. Participation is by invitation only through a nomination process. Participants are drawn from every U.S. state and territory and from international partner nations. Lt. Bailey will participate in graduate courses at the FBI campus in Quantico, Virginia. Classes are offered in the following areas: law, behavioral science, forensic science, understanding terrorism/terrorist mindsets, leadership, communication, and health/fitness. Officers participate in a wide range of leadership and specialized training, where they share ideas, techniques, and experiences with each other, creating lifelong partnerships that transcend state and national borders. During Lt. Bailey's time away Administrative Lt. Kevin Donovan will assume his duties.

In October of 2001 the Amesbury Police Department was originally accredited by the Massachusetts Police Accreditation Commission. In 2019 we again participated in the reaccreditation process, which includes a complete review of our policies and procedures to ensure we meet the over 257 mandatory and 75 optional standards. **I'm happy to report that I was recently notified that the Agency has met all the requirements for Accreditation and is being recommended for review and recognition. This will take place in February of 2020!**

Currently, Sgt. Lauren Tirone is our accreditation manager and works tirelessly to ensure we consistently meet those standards. Last year we incorporated a new software program, PMAM, which ensures that all employees are trained and aware of all policy updates in a timely fashion. The new software also allows for assessing the officer's knowledge of the policy and tracks their progress.

When I took office in 2017, I indicated that I would continue to strengthen existing community relationships while addressing quality of life issues. To that end I have re-signed memorandums of understanding with the

Pettengill House, Essex County District Attorney, Amesbury Public Schools, Anna Jaques Hospital and the Amesbury Housing Authority. These memorandums continue to allow us to work cooperatively to provide specific services to the members of the community that need them, all in an effort to positively affect quality of life issues as they arise. Over the past year we have worked cooperatively with not only the agencies already mentioned, but with numerous others by attending and presenting information at their meetings and becoming board members in several of the agencies. Some our agency involvement includes but is not limited to;

- Amesbury Chamber of Commerce
- Our Neighbor's Table
- Amesbury Council on Aging
- Jeannie Geiger Crisis Center
- American Cancer Society
- Coastal Connections
- Amesbury VFW and DAV
- Kiwanis
- Rotary
- Lions
- Northern Essex Community College

Involvement in these organizations allows a direct line of communication between the Community and the Police Department, allowing for a clear understanding of areas of concern within the Community. Understanding these concerns again allows us to work collectively to provide an adequately prepared response.

Since its inception over 8 years ago, the School Resource Officer (SRO) program has been extremely well received by the school community. This year Superintendent Jared Fulgoni and his staff have embraced the SRO program and the officers involved. Currently there are four officers assigned to the schools; Officers Lesage, Guilmette, Burrell and Morrill, and each officer brings a different set of skills with them. Though the safety of students, staff and visitors within the schools remains a priority for us, officer involvement doesn't stop there! Currently, Amesbury officers are involved as head and assistant coaches in several student athlete programs including football, basketball, golf and hockey. Also, Lt. Kevin Donovan instructs a college-level criminal justice course for Northern Essex Community College as part of the early college program at AHS. SRO's by virtue of their positions are the first step in our school safety efforts, but they continue to be involved with students and staff before and after the school bell rings!

This year we have worked diligently to improve on our overall school emergency response plan and are fortunate to have a nationally certified ALERRT (Advanced Law Enforcement Rapid Response Training) Instructor in Officer Jonathan Morrill. Officer Morrill's knowledge in this area is invaluable as we constantly review and adjust our school safety/response program. Since school began in September, we have planned and performed several emergency drills in each of the public schools. At the completion of these drills, all involved personnel evaluate the response and response protocols are then adjusted accordingly.

Over the past several years the City has worked hard to bring in new business, new housing opportunities and provide residents and visitors with a multitude of new and expanded services. The Amesbury Police Department has been at the forefront of these initiatives, working closely with the Mayor's Office, City Council and other City departments to assist in the planning and development process. As these new initiatives come to fruition, so too does the draw on City resources. As we have seen over the last 10 years or so, the Community is changing and with it the types of calls for service. These changes require officers to be mindful of outside resources and how to access them and be willing to spend significant amounts of time on a given call. The

changes in how we respond, as well as the completion of community development initiatives tend to determine our staffing and personnel needs. As we move forward, we will be analyzing the possible need to restructure and add personnel.

Highlights and Accomplishments This Year

- ❖ Amesbury Days (July)
- ❖ National Night Out (August)
- ❖ Seniors' Breakfast with the Chiefs
- ❖ Autumn Drug Take Back Day over 300 lbs. unwanted medications destroyed
- ❖ Red Ribbon campaign to promote traffic safety at holidays
- ❖ Fill a Cruiser Food Drive in November
- ❖ Our community outreach efforts such as The Amesbury Beat in the Daily News, column in the monthly Senior Newsletter, Facebook Page and cable television appearances continue to be popular sources of information.
- ❖ Child passenger Safety Technician Program
- ❖ Special Olympics Awards Ceremony
- ❖ Anti-bullying program in the schools
- ❖ Chief Scholtz received Dr. Patrick A. Schettini Award for Distinguished Service by the Massachusetts Partnerships for Youth
- ❖ Awards and Grants
 - Traffic Enforcement Grant
 - Child Safety Seat Grant
 - Underage Alcohol Grant
 - Received AAA Gold Award for outstanding traffic safety efforts

Amesbury Police Department At A Glance

Sworn officers: 33 (including chief and command staff)

Chief: William A. Scholtz

Headquarters: 19 School Street
Amesbury, MA 01913

Rank Structure: Chief
Lieutenant/Executive Officer
Lieutenant/Administrative Officer
Sergeant
Patrol Officer

Amesbury Fire Department

Kenneth Berkenbush, Chief

The Amesbury Fire Department is a multi-disciplinary team of professionals who provide a wide range of emergency services from Fire Suppression and Tech Rescue to state-of-the art Advanced Life Support Emergency Medical Services. The Department also provides Public Education and Inspectional Services, i.e.; smoke and carbon monoxide detectors, fire suppression systems, oil tanks, propane tanks and gas tanks.

For the “S.A.F.E” program, Deputy Chief James Nolan continues to be a shining star in the community for education of fire safety within our schools and to the public in general. The fire safety programs offered to communities with the “S.A.F.E” trailer have been an overwhelming success with more requests then ever from neighboring fire departments for the “S.A.F.E” trailer. We have Acting Lt. John Kane, FF Steve Allen and FF Justin Kane for training to become new S.A.F.E. trainers for our schools and community. We are very lucky to have the educational staff to teach children and adults about fire safety.

The Fire Department, with aid of the Hospital Trust, was able to upgrade our old auto pulse (Automated CPR devices) with new and easier to deploy “Lucas” devices that have already been instrumental in the life saving efforts of our Paramedics and EMT’s with successful resuscitations of cardiac arrest in the field.

This year Acting Lt. Robert Serino was appointed to the Massachusetts State Hazardous Materials Team as a Hazardous Materials Technician. Rob is the second member of the Department to reach the level of training needed to be selected to the State’s Hazmat team.

We await the delivery of our new Ambulance, which should be here prior to the New Year. Our Ambulances have an optimal lifespan of 6 years and will respond to over 7,000 calls to serve the public in that time.

The department has been very busy with responses this last fiscal year, here’s a snapshot of the runs:

- 45 Fires (Building, Auto and Outside fires)
- 2,309 EMS / Rescue calls
- 115 Hazardous Conditions
- 1,006 Service / Inspection calls
- 450 False Alarms

Amesbury Fire Rescue has continued its commitment to various community programs such as:

- A smoke detector and/or battery replacement program funded by the hospital charitable fund
- File of Life Program, which provides material to enable the elderly to keep their medical information and a list of their medications out where responders can easily find it if the patient is unable to communicate the information at the time of an emergency
- Be a Buddy, Not a Bully Program, where wristbands donated by Amesbury Chevrolet are distributed in the schools and guest speakers are brought in to give the students and parents some insightful information about the harm that bullying causes
- Have a Heart for Veterans in February and Breakfast for Veterans in November are two more programs that we are proud to be a part of

While we continually look to improve ways to meet the needs of the Community, the Fire Department stands ready with a strong work force and leadership team. We look to strengthen our Department with advancement opportunities for the Firefighters and to meet the challenge of ever-rising requests for our services to the residents of Amesbury.

Inspections Department

(Building, Plumbing/Gas & Electric)

Denis Nadeau, Bldg. Com. / Zoning Compliance Officer

Donna Lickteig, Adm. Asst.

Angelo Salamone, Local Inspector

Brett Burdick, Plumbing & Gas Inspector (part-time)

Daniel Donahue, Asst. Electrical Inspector (part-time)

The Inspections Department issues permits for work being done in the City of Amesbury and ensures that all building is in compliance with the City of Amesbury Zoning By-laws, City of Amesbury Bylaws/Ordinances, Massachusetts General Laws, Massachusetts State Building Code 8th Edition, International Building Code, Architectural Access Board, National Electric Code w/Mass. Amendments (NEC), National Fire Protection Agency (NFPA 70) and Massachusetts Fuel, Gas & Plumbing Code.

In addition, the Inspections Departments in accordance with 780CMR State Board of Building and Regulations Standards, performs annual inspections of public buildings, churches, in-law apartments, and multi-unit dwellings.

The Inspections Department is self-supporting. Please see below for the permits issued for Fiscal Year 2019 and the accompanied revenue received associated with these permits. These are **permit fee costs**, not construction value.

Permits Issued

Building Permits	737 issued	\$230,945
Electric Permits	387 issued	\$56,234
Plumbing & Gas Permits	456 issued	\$38,960
	1,580 issued	\$326,139

Regional Health Department

(Housing, General Nuisance, Septic, Food & Dumpster)

John W. Morris, Director
Donna Lickteig, Adm. Asst.
Amy Courtney, Chairperson
Matthew Steinel, Co-Chairperson
Lorri Fucile, Board Member

The Regional Health Department is part of an Inter-Municipal Agreement (IMA) to provide services to Amesbury and Salisbury. The IMA was started in October 2009 and has been renewed successfully until June 30, 2021. The IMA calls for the Director of Public Health to provide administrative duties to Salisbury and act as contract inspector for the Town to perform inspections as required by public health laws. The Director also oversees the Public Health Nurse and Animal Control Officer for both communities. In order to compensate Amesbury for service, the Town of Salisbury is billed each fiscal year based upon a formula contained within IMA. The formula requires payment for director services and the public health nurse services in Salisbury. The Town of Salisbury also reimburses Amesbury for on-call animal control services at a rate of 50%. The full-time animal control officer is a Salisbury employee and Amesbury pays 50% of the cost of salary to Salisbury.

The duties of the Health Department are to enforce public health laws, rules and regulations under the following: ***Massachusetts State Sanitary Code for housing, food, camps, pools and beaches; Board of Health Rules & Regulations; Article 25 Animal Control Licensing pursuant to City of Amesbury ordinances; Massachusetts State Environmental Code and various other laws.*** The Director also represents the City of Amesbury and Town of Salisbury as its Agent for Region 3A Emergency Planning Coalition and the Northern Essex Regional Emergency Planning Committee.

Department of Public Works

Department of Public Works

Rob Desmarais, Director

The Department of Public Works is responsible for the maintenance and improvement of all city infrastructure. The Department was reorganized, and Highway, Tree, Parks and Cemetery divisions were consolidated into the Public Services Division. Public Works now consists of the following divisions:

Administration	Recycling, Compost and Refuse
Engineering	Sewer
Facilities	Snow and Ice
Public Services	Water

Administration Division

Administration handles work requests, issues work orders, plans, sets policy, handles procurement, payroll, account payable and is responsible for the overall direction of the department.

Engineering Division

Engineering handles the technical aspects of the departments work. This includes survey, design, review and inspection of various elements of work in the City. The Engineering Department also manages the city's watershed and water control structures such as dams.

Facilities Division

The Facilities Division conducts maintenance and improvements to Amesbury's public buildings and other structures. General Duties of Facilities includes winterizing, Roof and Pipe freeze up inspections, inspection of traffic light boxes, maintenance of irrigations systems, emergency lighting, fire extinguishers for 18 properties and performs minor tree work.

Specific Projects this year:

- Repaired roofs and gutters at several buildings
- Installed Park Benches
- Renovated several offices
- Built Picnic Tables for various public spaces
- Dozens and dozens of minor repairs and improvements

Public Services Division

The Public Services Division maintains the roadways, sidewalks, drainage systems, catch basins, drain manholes, sewer manholes, signs, traffic controls, period lighting, tree grates, trees, compost facility, cemeteries and parks.

The following is a list of specific tasks:

- Set up for special events.
- Set up and breakdown of voting equipment.
- Set up for City meetings.

- Assist all other Divisions with various projects and emergencies.
- Schedule and monitor contractors hired to sweep streets, parking lots, clean out catch basins, paint center lines, fog lines and various other projects and emergencies.
- In house line painting, crosswalks, stop bars, arrows, word symbols, parking spaces, handicap spaces, no parking areas in downtown area, all parking lots and schools.
- 1,075 tons of hot top was used to patch around catch basins, manholes, water trenches, drainage trenches, settled trenches, potholes, repairs to road.
- Catch Basins cleaned 1,920
- Street Sweeping – approx... 200 lane miles
- Parking Lots swept - 9
- School Parking Lots Swept - 4
- Street Name signs installed - 25
- Safety and Regulatory signs installed - 30
- In house – Hot top around the manholes and catch basins.

Recycling, Compost and Refuse Department

The compost site at 60 South Hunt Road received approximately 500 tons of yard waste and brush and was open Thursday through Sunday from April to December. Statistics taken yearly on municipal recycling and trash collected by contractor G. Mello shows:

- Recycling rate 28% of total waste was recycled.
- Solid Waste Tonnage was 4744.79

Wastewater Division

The Wastewater Division operates and maintains the Amesbury Water Pollution Abatement facility and over 55 miles of gravity and force mains located throughout the city. The staff also performs O & M on 28 pumps stations located throughout the city.

The Wastewater Division administers an Industrial Pretreatment Program as part of its compliance procedures in accordance with its NPDES permit. Under this program, the City permits the discharge of industrial process wastewater to the AWPAP in order to enforce not only locally imposed limitations but also federal guidelines. The staff conducts industrial sampling and inspections throughout the year. No violations were found this year. The AWPAP treated 526 million gallons of wastewater during the year. The staff is also responsible for sewer main blockages and breaks. The staff does monthly O & M on trouble mains in the City by jetting troubled sections of pipe throughout the City.

Plant staff has made repairs and improvements to many of the 28 pump stations throughout town, including new controls and pump repairs.

Collection systems staff performed O & M on all 28 pump stations and grinder pumps located in the Lake Attitash area.

Snow and Ice Operations

The Highway Division is responsible for plowing and removal of snow from streets, parking lots, sidewalks, all public buildings to include all schools. Snow operations also include salting, sanding, putting out sand barrels

and refilling as needed. Post storm operations include scraping, pushing back and removal of snow piles and windows.

The Highway Foreman oversees the entire public works snow operational staff and contractors. Approximately 50% of snow plowing is performed by contractors; Town plows 17, contractor plows 16, 2 sidewalk plows.

Inches of Snow Reported - 66"

Water Department

The Amesbury Water Department consists of three divisions; Maintenance, Treatment and Meters. The three divisions are dispatched out of the Ring's Corner Pumping Station located on Newton Road.

The Maintenance Division repairs pipes, valves, hydrants and does all work associated with the distribution system. Over the last few years this group has also replaced water mains throughout the City.

The Treatment Division operates the treatment plant, turning river water into potable water for Amesbury.

The Meter Division reads all meters in the City quarterly, performs final reads on property transfers and assists customers with billing issues.

Office of Community & Economic Development

Office of Community & Economic Development

William Scott, Director

The Office of Community and Economic Development (OCED) is a proactive agency that facilitates resources and creates opportunities to foster economic vitality, preserve and enhance neighborhoods, improve the quality of life and the environment, and promote equity and opportunity for all residents of Amesbury. We are a team of dedicated public officials who view the needs of the community as opportunities for continual improvement. The Office includes both Community and Economic Development, and Planning. The people responsible for our success include; William Scott, Director of OCED; Nipun Jain, Planning Director; Joan Baptiste, Executive Secretary; Kaila Sauer, Permit Coordinator; and Kristen Eldridge, Recording Secretary. The OCED appreciates and values the time and guidance of the members of the City Council, Boards, Commissions, Committees, and community organizations. This report covers the period from July 1, 2018 through June 30, 2019; however, we extended the duration to show continuity in projects.

Economic Program Approach 2014 to 2018 – A Review of Five Years of Success

Before 2014, the City of Amesbury shifted development focus between the downtown to sites outside the downtown. Public investments were the driving force to facilitate new growth and redevelopment, with downtown projects such as the Upper and Lower Millyards. The Upper Millyard's success became evident; however, the Lower Millyard has yet to see a reciprocal development commensurate with the public investment. The theory of "if you build it they will come" did not create the anticipated outcome in the Lower Millyard.

Since 2014, the increase in tax revenues, economic ripple impact, and job creation were the primary objectives. To the Gray administration the public investment mantra shifted from "if you build it they will come" to a more pragmatic "private investment before public investment". With the above objectives for the private investment, the targeting of when a public investment should occur, after proof of development, had standing. Essentially the City became the second investor in a public/private partnership. While it was second, the partnership had to parallel development to keep pace; therefore, new methods for investment were necessary.

This parallel-partner approach required detailed and difficult incentive and investment strategies that move with fluidity and at the pace of private development. Rather than dumping all the City and State money into infrastructure, with an expectation a developer will materialize, the new approach of parallel partnerships established an outcome to target improvements to meet the mitigation demand as it occurred, and therefore ensured that a fiscal return was available for the City. This parallel partnership approach created a need for a funding program that occurred simultaneously with the growth.

In March of 2014 the Tax Increment Financing (TIF) Program guidelines were proposed by Mayor Gray as developed with OCED and adopted by the City Council in May of 2014. A forty-page set of TIF guidelines established a set of criteria from which the first incentive program was developed. The TIF program met that standard of parallel partnerships to leverage growth for developments that delivered ripple impact, taxation revenue, and jobs. The Hampton Inn Hotel development, which had previously withdrawn from the community, moved forward within months with an approved TIF, and created outcomes that met the economic objectives. TIF is one of those incentives that can parallel development, depending on timing, it can move as fast as development. The Hotel did not require an offsite

infrastructure improvements package; therefore, if the City faced infrastructure demands for economic development an approach for the off-site program would have been necessary.

Realizing that access to sites was the most prominent constraint for development, working with OCED, Mayor Gray brought forth the LEAD program, or Leverage Economic Access for Development in 2016. LEAD was a resolution with the City Council indicating that the City would develop investment programs to create off-site improvements for development. This resolution set the stage to target development incentive programs that met the LEAD parameters. The OCED competed for and was fortunate to be selected by MassDevelopment to join a pilot program that established District Improvement Financing (DIF) guidelines for the Commonwealth.

Commensurate with the development of the TIF and DIF programs was a concerted effort to attract the businesses that met the criteria of ripple impact, taxation revenue, and jobs. Zoning changes, targeted marketing (by calling development teams), and planning off-site programs were strategies employed at both the I-95 and I-495 interchange sites. The Hampton Inn (off Elm Street) provided the first success in the shift of economic strategy, using a TIF to leverage the private investment that meets the three objectives. Unfortunately, in the case of the I-95 area the Golden Triangle sites, several development teams did not materialize an agreement with the property owner. The opposite is true in the I-495 South Hunt area where the Atlantic Center, now Maples Crossing, began the process of establishing a development program that met and substantially exceeded the City's criteria.

The next step was to make all of the City economic tools align and move forward with the Maples Crossing development. Given the approvals for the TIF (2014) and DIF (2018) programs, the City was now armed with the ability to create a parallel partnership for offsite work. The proposed Maples Crossing development combined with these tools cleared the path for the City to request and obtain \$4.5 million in MassWorks funds, in two grants. The funding plan will establish the infrastructure program to solve the highway access issues toward stimulating economic development.

A prior approach was to focus on the downtown as its own entity, as a target for economic development. The approach since 2014 has been to create a broader economic reach and bring visitors to the City using sites near the Interstate. With the interstate centric Maples Crossing development the opportunity looks positive, with estimated visitation to the Maples Crossing will near 500,000 annually with over 62,000 room nights annually and over \$2,000,000 per tournament. Now that a large economic magnet will be established, the next step is to assimilate those visitors into business within the Downtown.

Step Two, the future, is more of a repeat of the above, namely: establish parallel partnerships to stimulate downtown investment and facilitate new growth to accommodate the ripple impact of the new visitors and new residents within the downtown by using visitors from the Interstate developments. The below programs and projects are indicative of the above referenced approach. The key is to create a partnership with the private sector that can move at the speed of the private sector.

Over the past five years a positive real estate market drove some of the investment, yet an up market is not enough. Since 2014 the approach has been the implementation of strategies to ride the market wave and create opportunity. The market alone does not bring change, strategies since 2014 to take advantage of the market led to success. The reality is you can't ride the market by watching it from the beach.

Community and Economic Development Programs

Tax Increment Financing (TIF): Established in March of 2014 through the detailed guidelines adopted by the City Council, this program will facilitate over \$82 million in estimated new growth (Maples Crossing \$70

million, Elm Street Hotel \$10 million, Manufacturing \$2 million). This is against the \$5.2 million incentive provided over 10 to 16 years depending on the project. More importantly the program has facilitated growth in sectors that attract tourism which generates an economic ripple impact for local business. This program helps the City amortize on-site circumstances that would otherwise (without the incentive program) prevent a company from developing on a site within the City. As the City's tax rate continues to decline and the economic viability of Amesbury increases, the need, and therefore availability, of incentives will decline.

District Improvement Financing (DIF): The City is one of three communities in the Commonwealth of Massachusetts selected by MassDevelopment to serve as a pilot community for statewide DIF program guidelines. The City took that responsibility even further and will be the first in the State to receive approval using the new DIF agreement process. The DIF is a tool that leverages private growth to fund public infrastructure, which in-turn facilitates the private growth. The program allocates a percentage of new growth, in a given district, to use as revenue from which borrowing can occur. The funding is typically used for engineering costs or project "seed money" to leverage grant funding and private investment.

Property Assessed Clean Energy (PACE): The City is the first in the Commonwealth of Massachusetts to adopt PACE locally. This program allows the use of a private betterment financing approach, using a tax surcharge to pay down debt through private banks at no risk to the City. Energy savings that go to the bottom line, without incurring debt and allowing the debt to pass on to the next property owner as taxes, is a strong reason this program will become popular.

Massworks Program Various Years: The City, through the Community Development Office, has achieved over \$5.6 million in the past four years through this program. Improvements at Routes 110, and 150, (\$1.1 million 2016), and the intersection of I-495 and I-95 at Route 150, (\$2.5 million 2018) and South Hunt Road (\$2.0 million) provide increased traffic safety and throughput, in a manner that reduces the fiscal impacts on the local community.

Community and Economic Development Projects

Maples Crossing (formerly the Atlantic Center), 410,000 square-feet - Estimated \$70 million value:

During the Planning Board review we simultaneously guided the development through the incentive program providing a TIF and executing a DIF for the off-site traffic program. OCED is working with the developer to create ties between the project and the business community. Phase Two plans includes a 200-room Hotel to support the project. It is estimated that the vacant land that comprises the Maples Crossing site would provide \$135,159.58 (without escalation) in tax revenue over the next sixteen-years, which is the duration of the TIF. Over that same period, after applying the tax incentive the Maples Crossing provides over \$7,674,486.72 in revenue. The annual revenues for the first six-years is \$2,402,458.47 with the TIF applied; therefore, if the City held off on the TIF for six-years the revenue would be lost. Given the site has been vacant for over twenty-five years, and presents site challenges, the likelihood of revenue loss for at least the next sixteen-years would be high. The increased tax revenue is one aspect where the ripple impact of the Maples Crossing is clear. It is estimated that 500,000 people will be visiting the Maples Crossing annually. That estimate is actually low when comparing to nationwide numbers that attribute 240,000 annual visitors per rink, and the Maples Crossing has six rinks. With this level of visitation, the economic impact is estimated at \$2,300,000 per tournament.

I-495 and Route 150 Phase 1: The proposed South Hunt Area Infrastructure Improvement Project (Phase I) will undertake roadway and transportation improvements at the two Route 150 / Route 495 Ramp intersections in the South Hunt Road area. Phase I will address the critical infrastructure needs of the Atlantic Sports Center and provide secondary benefit to recently approved or constructed residential developments including Amesbury Heights (240 apartment units, 40R), Baileys Pond (100 units of townhouses), and Hatters Point (45

condominiums). The project has completed the MEPA process and is funded with the above referenced DIF (\$1.2 million) and Massworks (\$2.5 million) programs.

South Hunt Roadway Phase 2: The Phase 2 South Hunt Roadway project will provide crucial access and multi-modal connectivity between the Phase 1 infrastructure, to the Phase 2 Hotel and Office Building site. The City has been awarded MassWorks funding for \$2,000,000 which includes construction and construction administration. Beyond the City project funded by grants and the DIF, the Phase 2 will include additional roadway investments of \$3,700,000 by the developer in a new subdivision roadway, complete with utilities and frontage improvements for future development. The City will provide \$700,000 in City matching funds for engineering and construction.

CDBG Program (Community Development Block Program): The City completed a successful closeout of FY 2016 CDBG program which was a partnership with the Town of Merrimac for Housing Rehabilitation, Pettingill House and Our Neighbors Table, and has moved onto FY 2019. The City obtained a CDBG award of over \$900,000 for a program that provided crucial services and housing rehabilitation funds for both communities. The City recently received approval for the FY 2019 program for \$800,000 including Housing Rehabilitation, Pettingill House, Our Neighbors Table, and Jeannie Geiger Crisis Center. Administrative steps are underway to begin program implementation.

Department of Energy & Environmental Affairs

Department of Energy & Environmental Affairs

Thomas Barrasso, Director

Department Scope

The scope of Energy and Environment Affairs includes the development of conservation and renewable projects within the context of the Commonwealth of Massachusetts Green Communities program, utility incentive programs, and opportunities established by the City through the department. The Environment services include Brownfields and Superfund oversight and redevelopment; management of City owned contaminated properties; oversight of assessment and remediation projects in which the City is a stakeholder; and City compliance with all Commonwealth of Massachusetts and Federal environmental laws and regulations. This includes management of the Conservation Commission.

Amesbury Conservation Commission

The commission, which serves as the Massachusetts Department of Environmental Protection – Wetlands Division local representative, is a state and local regulatory review and compliance. The commission is tasked with upholding state and local wetlands laws by adjudicating proposed projects based on the law and the best science and engineering data available. During the past year, the Amesbury Conservation Commission held public hearings on a variety of proposed projects jurisdictional to the Massachusetts Wetlands Protection Act; Massachusetts Endangered Species Act; Massachusetts Stormwater Standards; the Massachusetts Clean Water Act; and the City of Amesbury Wetlands Ordinance. The conservation commission oftentimes coordinates reviews with various state agencies including the Massachusetts Natural Heritage Endangered Species Program; the Massachusetts Division of Fisheries and Wildlife; and the Massachusetts Division of Marine Fisheries. When applicable, proposed projects may also subject to federal and tribal review. Due to the large volume of proposals, commission appointed consultants serve as adjunct staff in providing critical technical mission support. Through the strategic use of consultants, paid for by the applicant, conservation commissioners are able to make certain proposed projects proceed through the permitting process in a timely manner. The use of consultants reduces cost to the applicant and taxpayers while ensuring the approved project is held to the highest standard, thereby safeguarding Amesbury's natural beauty and recreational opportunities. The following is a sample of the many proposals which appeared before the Amesbury Conservation Commission this year.

Department Interaction

The above is executed through all departments in the City. Environmental support is focused on redevelopment efforts working directly with the Director of Economic Development, and open and ongoing issues of compliance under MA DEP. This year the City worked closely with the Merrimack Valley Planning Commission (MAPC) to access EPA Brownfields funds to assist with the investigation and remediation of hazardous waste sites under the Massachusetts Contingency Plan (MCP).

Energy projects are focused through MA DEOEAA and MA DOER using the funding source of the Green Community Grants and the resulting project list of Energy Conservation Measures (ECM) generated during the City's energy baseline year of 2013. This baseline is augmented by additional prioritization studies completed by the department resulting in a roadmap to 20% energy reduction. This prioritization provides the basis for deciding which energy projects are executed on municipal property.

Contractor Support

Over the last year the following contractors were selected through either an RFP process, a direct select using the MA PEX List, services provided by the utility company – National Grid, direct select under the Commonwealth’s procurement laws, or allowable use under contracts with agencies such as the MVPC and MAPC.

Contractor	Energy or Environment	Selection	Function
Credere	Environment	MVPC	MCP Brownfields Project
ENE Systems of NH	Energy	Direct Select PEX Contractor	Green Community Project Proposals
Weston & Sampson	Energy	Direct Select PEX Contractor	Mission Support, META Grants, and ECM Prioritization
K&P Law	Environment	Retained by City	Former Titcomb Landfill Solar Array Project
Ransom Environmental Inc.	Environment	RFQ for Environmental LSP Services	Fieldwork and support to close out MCP issues within the Lower Millyard at 16 and 22 Water Street
BSC Group	Conservation Commission	RFP	Wetlands Review, Environmental Monitoring, MVP Grant Support
Stantec	Conservation Commission	RFP	Wetlands Review and Environmental Monitoring
GZA	Conservation Commission	RFP	Wetlands Review and Environmental Monitoring
Horsely Witten	Conservation Commission	RFP	Wetlands Review and Environmental Monitoring
PEER Consulting	Conservation Commission	RFP	Wetlands Review and Environmental Monitoring
LightSmart Engineering	Energy	MAPC	Streetlight LED Conversion
Arden Engineering	Energy	MAPC	Streetlight LED Conversion
GrayBar	Energy	MAPC	Streetlight LED Conversion
Standard Electric	Energy	MAPC	Streetlight LED Conversion
Steam Trap Systems	Energy	Direct Select PEX	Library Boiler Evaluation

Active Grants

NAME	AWARDING AUTHORITY	VALUE	PROJECTED END DATE
Green Community Streetlight Conversion to LED	MA DOER	\$250,000	May 2019
Streetlight LED Retrofit	MAPC	\$74,908.10	November 2019
LED Streetlight Retrofit Incentive	National Grid (Utility)	\$98,131	December 2019
Municipal Vulnerability Preparedness (MVP)	MA EEOA	\$38,000	June 2019 (Tasks Completed)

Projects

Environment

- 1) Lower Mill Yard MA DEP Compliance Completion
 - a. Description: Evaluate all open RTNs and develop a plan for closure under the MCP.
 - b. RTN Status:
 - i. There are eight (8) RTNs associated with the ongoing work of redevelopment of the Lower Mill Yard. Work to date involves properties owned by the City, for which the City is the responsible party, and other properties being run under funding from MassDevelopment.
 1. 3-0032608 – CLOSED
 2. 3-0019634 – CLOSED
 3. 3-0031842 – CLOSED
 4. 3-0032606 – CLOSED
 5. 3-0016715 – CLOSED
 6. 3-0031886 – CLOSED
 7. 3-0032071 – Closed 2019
 8. 3-0032568 – Closed 2019
 - c. This year's work included closing out 16 and 22 Water Street.
 - i. The City and Ransom Environmental completed all investigations needed to satisfy a Permanent Solution under the MCP for the last two: 16 and 22 Water Street. No Activity Use Limitation (AUL) was needed for the sites.
 - d. The Department in conjunction with the CFO's office negotiated a payment plan with MA DEP for \$4,910.00 for 25 and 31 Water Street. The full payment of \$4,910.00 was made to MA DEP and the RTNs were closed.

- 2) Lower Millyard Additional Work:
 - a. MassDOT as part of their work for the Amesbury Trail System through the lower Millyard excavated soils in the areas of 31 and 25 Water Street. During this process additional Polychlorinated Biphenyl (PCB) contamination was detected in the soils. This led to the stockpiling of soil at the property until a disposal solution could be reached with MassDOT.
 - b. Issues:
 - i. The contamination is related to PCB contamination previously identified by the City at 31 Water Street. That contamination was investigated and remediated by EPA as part of the work in the Lower Millyard. The discovery of additional PCB contamination is problematic as EPA is no longer involved with the site.
 - ii. As of October 2019 MassDOT contractor, Onyx Environmental is investigating the nature and extent of the contamination. Data will be shared with the City when it is available.
 - iii. As the property owner the City will need to prepare for additional remediation work on the site.
- 3) Microfab –
 - a. Status: Ongoing
 - b. Description: A former printed circuit board manufacturer in operation from approximately the 1950s through the early 1980s. It is also associated with the former Brazonics site. The site was added to the NPL by EPA.
 - c. MA DEP estimate for the cost of demolition is approximately \$1.5 million.
 - d. Conducted a briefing with MA state officials and the Mayor in summer of 2019. This included a site visit by both Rep. Kelcourse and Senator DiZoglio.
 - e. Monitored EPA removal effort and remedial investigations at the site all year. This included soil and bedrock borings, monitoring well installation, geophysics and mapping
- 4) Trader Allen's Truck Stop
 - a. Status: On hold
 - b. Description: Provide Brownfields redevelopment support as needed that will allow this site to be put back into productive reuse.
 - c. Arrangements have been made with MVPC to use their Brownfields EPA funding to complete Phase investigations that will allow the City to prepare an RFP for sale of the property for redevelopment.
- 5) 33 Mill Street
 - a. Status: Ongoing monitoring of the issues and reports from MA DEP and private contractors.
 - b. Description: The site is a former MGP plant that is privately owned by Mr. J.D. Brown. Mr. Brown contacted the City in December of 2016 to open a dialog with the City to explore avenues to helping him divest of the property. Mr. Brown may be in a position that will force him to stop paying his taxes, which may result in a foreclosure by the City, resulting in the City taking the lead on the potential environmental impact of the property.
 - c. The City has discussed a possible investigation using MVPC assessment money. This investigation would concentrate on off-site migration of contaminants in order to determine the extent of the contamination.
 - d. Currently the property owner is engaged in efforts to remediate soils contaminated with metals. That will involve soil excavation and removal after undergoing a regulatory review and approval by the Amesbury Conservation Commission pursuant to the Massachusetts Wetlands Protection Act and the Amesbury Wetlands Ordinance.

- 6) Bartley Machine
 - a. Status: Ongoing
 - b. Description: The property is a former industrial facility with contamination from multiple sources. Provide Brownfield redevelopment expertise to the Director of Economic Development as needed.
- 7) 72 Elm St. Transmission Shop
 - a. Status: On hold
 - b. Description: Provide Brownfield redevelopment expertise to the Director of Economic Development as needed.
- 8) Former Space Age Cleaners Site
 - a. Status: Ongoing
 - b. Description: Provide Brownfield redevelopment expertise to the Director of Economic Development as needed.
 - c. The City has discussed a possible investigation using MVPC assessment money. This investigation would concentrate on off-site migration of contaminants in order to determine the extent of the contamination.
 - d. Investigations by an abutting property owner indicates a plume of VOCs may be migrating from the site and impacting the surrounding properties. Of particular concern are issues with Vapor Intrusion of these contaminants into the surrounding buildings.
- 9) Former Titcomb Landfill Environmental Monitoring
 - a. Status: Negotiations for any transfer of responsibility have ceased per Mayor's Office.
 - b. Description: Because the City is actively engaged in the development of Titcomb into a solar facility we are remaining in contact with Waste Management, Inc. on this issue. They are demanding a meeting to discuss impacts the solar project may have upon the landfill integrity. In conjunction with the Mayor's Office, and K&P Law the City has drafted a response to that meeting request. The response is awaiting review by the Mayor's Office.
- 10) Former Horace Mann School
 - a. Status: Ongoing
 - b. A Purchase & Sale agreement was signed with a developer in 2019. The City is providing any needed assistance to the operations at the sight and coordinating with the developer and their environmental consultant team.
 - c. As of October 2019 an underground storage tank (UST) was uncovered during the preliminary purchase negotiations. The UST was part of the heating system for the building. Petroleum sludge residue was found at the bottom of the UST. The tank and contents were excavated and removed in accordance with the MCP by the developer's environmental consultant team. At this time reports indicate that there is no impact to the environment from the UST. The City is awaiting the final reports from the developer.
- 11) Powow River Clean Up
 - a. Status: On hold
 - b. Reviewing a plan to test and remove the remnants of the steam pipes along the Powow in the vicinity of Main Street and the former steam plant on Water Street. The work is being coordinated with a citizen group and Dan Healy. Samples from the pipe have been collected. The City is awaiting the results of the analysis and a plan for the removal of the pipes.
 - c. Analysis of material from the steam pipe indicates the presence of asbestos and wool as the insulating material.

- d. Additional discussions with the property owners is needed to proceed.

12) Lake Attitash Invasive Species Management

- a. Status: Ongoing
- b. Description: Work with other City departments to support analytical studies, and projects to manage invasive plants and water quality of the lake.
 - i. Current projects include: Milfoil weed treatment and Alum chemical treatment of the lake.
- c. The Alum Treatment was conducted in the spring of 2019. During the initial phase of the treatment a boat accident occurred resulting in the release of the treatment chemical to the lake. Follow up with MADEP and the City included testing for effects of the released chemical and petroleum compounds from the boat's engines. All parameters from the tests indicated no threat from the chemical release and no indication that petroleum was released into the lake.
- d. Both Environmental and ConCom will continue to support lake restoration efforts.

13) Margaret Rice Property

- a. Status: Completed
- b. Description: Work with Economic Director on potential reuse scenarios for the property and how environmental conditions may impact those plans. Currently coordinating with MVPC for use of their Brownfields Assessment grant to perform environmental Phase I, and possibly a Phase II, investigation.
- c. A Phase I investigation was completed by the MVPC for the City in March 2018.
 - i. The results of this investigation recommend an additional Phase II be conducted because of the historical use of the site as an illegal dumping area. The dumping of solid waste, such as tires and white goods, may have impacted the environment.

14) Former Space Age Cleaners Site

- a. Status: Ongoing
- b. Description: Currently coordinating with MVPC for use of their Brownfields Assessment grant to perform environmental Phase I, and possibly a Phase II, investigation. The investigation would focus on off-site migration of a plume of VOCs known to be at the property.
- c. The proposed above investigation did not occur. MVPC and EPA were not able to provide assistance as the City does not control the property. In addition, offsite locations were not able to be used to study offsite effects of contamination from the property as EPA will not permit their funds to be used in the right-of-way, the City streets, for this type of investigation.
- d. MA DEP is currently looking into the property and the contamination plume.

15) National Grid Substation Site, Mill St.

- a. Status: Ongoing
- b. Description: Continue to work with National Grid to determine the feasibility and timetable for moving the substation to another location within Amesbury. This is being driven by resiliency factors, possible contamination, and Brownfields redevelopment potential of the Mill St. area.

16) Municipal Vulnerability Preparedness Grant

- a. Executed by Commonwealth of MA DOER. Provides funding through grant. Intent is to prepare for extreme weather and natural hazard by building community resilience to such impacts. Designates participating communities through Executive Office of Environmental Affairs (EEA). Preparation of action-oriented resiliency plans. Linked to other infrastructure programs/projects.
- b. The City received our grant in June of 2018 for a total of \$38,000.

- c. The City through this department conducted the required workshops fulfilling the grant requirements. The Resiliency Workshop was held on March 7th, 2019.
- d. Final Reports and closeout of the grant was accomplished in June of 2019.
- e. Preparations are underway to apply for additional grant funding to execute items on the plan developed during the community workshop.

17) Combined Sewer Overflow (CSO) Event/River Monitoring

- a. Status: Ongoing.
- b. Work with the Mayor's Office to develop a possible approach to monitor the health of the rivers with respect to sewerage discharges occurring upstream of Amesbury.
- c. Meeting attendance through MVPC throughout the year as needed.

18) Merrimack River Watershed Council

- a. Status: Ongoing
- b. Attend meetings as posted by the MVPC to stay informed as to the creation of the watershed council designed to tackle issues related to pollution, CSO, and overall health of the environment.

Amesbury Conservation Commission

For 2019, the commission opened 87 public hearings and 73 administrative discussions through the open public meeting process. The commission coordinated reviews with the Amesbury Planning Board and worked with applicants to bring projects into compliance with state and local regulations for approval. Highlights included the approval of the \$75 million-dollar Atlantic Sports Center known as Maples Crossing to be located on South Hunt Road. Other accomplishments included approvals of projects ranging from subdivisions to single-family homes. Working with applicants, conservation commissioners ensured projects met state and local environmental laws and state stormwater standards to protect life and property from flooding in flood prone locations while preventing damage to environmentally sensitive areas.

The ConCom also completed: 22 Orders of Conditions, 24 Certificates of Compliances, and 2 Orders of Resource Area Delineation from October 2018 - October 2019, for a total of 48. This does not include Enforcement Orders, Requests for Determinations of Applicability or business that was denied.

Energy projects are focused through MA DEOEEA and MA DOER using the funding source of the Green Community Grants and the resulting project list of Energy Conservation Measures (ECM) generated during the City's energy baseline year of 2013. Based on this information the energy projects are being executed in the City.

Energy

1) Green Communities Grant 2018

- a. This is the grant for the retrofit of streetlights to LED.
- b. Grant amount:
 - i. MA DOER = \$250,000.00
 - ii. MAPC = \$74,908.10
 - iii. National Grid Incentive = \$98,131.00

1. Total Grants: \$423,039.10

- c. The replacement program kickoff in the late summer of 2019 with a projected completion of November of 2019. LightSmart Engineering and Arden Engineering were hired through the Metropolitan Area Planning Commission (MAPC) as part of their community wide bids for lighting projects.
- d. Issues: The project encountered problems with the wiring power the lights. The contractor reported the majority of the primary wiring on the poles, approximately 98%, needed to be upgraded. The poor condition of the wiring was the result of many years of neglected maintenance by the utility company. The result of this finding lead to the decision to break the project into Phase I – Attachment of the new fixtures and Phase II – Wiring upgrade and completion.
- e. As of the writing of this report all but 10 of the 1,153 lights have been converted to the LED fixtures and re-wiring is underway.
- f. Lighting wattage change from low pressure sodium vapor lamps to LED are as follows:
 - i. 50 to 20/100 to 40/250 to 90
- g. Financial Savings:
 - i. Current Utility Costs = \$196,000/year
 - ii. Post Retrofit = \$44,000
- h. Tariff Change:
 - i. Streetlights through the utility are billed through a tariff structure and not through a meter reading. The change from the former S1 to the now S5 tariff will result in an immediate saving of \$65,000 for the current year.
- i. Quality of Life Improvements:
 - i. The City will benefit from better visibility in residential and high traffic areas.
 - ii. Green Community Goals
 - 1. Projected savings of 331,712 kWh/year
 - 2. Estimated 5% of the City's 20% reduction goal

2) Titcomb Landfill Solar

- a. Status: Ongoing. Projecting construction started in summer of 2019 with a projected completion of December 2019.
- b. Description: Provide project management and technical support to achieve construction of a 5.2 megawatt solar array atop the closed landfill. The result will be a financial benefit to the City through leased land, and the generation of solar energy being sold back to the power grid.
- c. Completed the execution of an RFP with award in September of 2017. Awarded to the team of Kearsarge Energy that includes Conti Construction (Now CS Energy) and Tighe & Bond. Currently completing contracts for the construction of a 4.5-megawatt system.
- d. The project will also include battery storage to manage peak flow onto the utility grid.
- e. The City will receive \$3.6 million over 20 years through a lease, Payment-In-Lieu-of-Taxes (PILOT), and energy saving through the utility company.

3) PACE Solar

- a. Status: Ongoing
- b. Description: The Commonwealth of Massachusetts has put forth legislation (bill S.117) that would allow Commercial Property Assessed Clean Energy (C-PACE). This means that property owners would be able to receive a new type of financing for their solar projects through organizations like MassDevelopment. As part of economic development for Amesbury the City is identifying possible projects and talking with MassDevelopment about the program.

- c. Working with the Office of Community & Economic Development in conjunction with the state and MassDevelopment to roll out a plan to use PACE to fund solar power installation on commercial facilities in Amesbury. This program allows businesses to pay for the installation of solar arrays to power their operations using bank funding. This will be the first of its kind in the state. Amesbury is currently supporting Design Werkes as the pilot project.
- d. There is also the potential for projects to be funded retroactively. Amesbury Industrial Supply and 14 Cedar Street may be candidates for this action.

4) Amesbury Library

- a. Status: On hold pending funding.
- b. Description: Assist Amesbury Public Library with evaluation and utility incentive applications for energy conservation measures. The goal is the increase the level of efficiency for the building, and reduces operational costs while maintaining a healthy working environment for City staff and the public using the facility.

5) DPW Buildings Heating Systems Evaluation and Modification

- a. Status: On hold pending funding.
- b. Description: Assist Amesbury DPW with an evaluation and utility incentives of their buildings heating systems with the goal of increasing energy efficiency and operational cost savings.

6) Massachusetts Energy Insight (MEI) Management

- a. Status: Ongoing
- b. Description: As part of the Green Community designation the City is working with the online software application MEI. This system tracks energy use through data feeds from the City's utility bills and data entry by the Energy Manage and designated contractors. This includes electricity and other fuels by department and by buildings. Reports are generated that aid the City in making critical energy decisions to guide all departments through the City's Energy Reduction Plan.

Public Outreach:

- 1) Ongoing – City Council, Finance Committee throughout the year as needed for updates and grant approvals.
- 2) Energy Committee – Once per month throughout the year.

Education:

- 1) October, 2019 National Grid Energy Symposium
- 2) LSPA Meetings (Attended 3 Monthly Meetings)
- 3) Merrimack River Watershed Council Workshops (Merrimack Valley Planning Commission)

Administration & Finance

Finance Department

Angel Wills, Chief Financial Officer

The Administration & Finance Department is responsible for overseeing the financial operations of the City. The Department's responsibilities include the following:

- Ensuring the City's funds are properly collected, recorded, expended and accounted for.
- Maintaining compliance with federal and state laws and regulations as they relate to finance and reporting.
- Designing, maintaining, and monitoring internal controls.
- Managing the proper procurement of goods and services and maintaining contracts.
- Adminstrating the payroll and benefits for all City employees.
- Oversight and regular review of all budgets and funds.
- Preparation of the annual fiscal year budget, capital improvement plan, and financial forecast.
- Managing and reviewing the property, liability and workers compensation insurance coverage.
- Adminstrating and providing support for the annual independent audit.

The Department also oversees the Assessor, Treasurer/Collector, and Management Information System offices.

The remainder of this section provides data about the state of the City's finances as of, and for the year ended June 30, 2019.

FY19 Balance Sheet

CITY OF AMESBURY, MASSACHUSETTS Combined Balance Sheet - All Fund Types and Account Groups as of June 30, 2019 (Unaudited)						
	Governmental Fund Types		Proprietary Fund Types	Fiduciary Fund Types	Account Groups	Totals

- **2019-011** A Resolution to support the following: The City of Amesbury through the Office of the Mayor and its City Council, request State Elected and Appointed officials to expediently adopt the Massachusetts PACE legislation so that we, in the City of Amesbury, can move forward with this crucial program. Delays in the legislation continue to cause delays in the innovation by locally adopting the program in November of 2017. Despite these local efforts the Commonwealth of Massachusetts has not moved forward to final adoption since PACE was originally proposed in July of 2016. Therefore local businesses and commercial property owners are unable to take advantage of the City's proactive PACE efforts – Mayor Sponsor. Councilor Stanganelli moved to adopt 2019-011 as presented. Councilor McClure seconded, and it was voted unanimous.
- **2019-012** A Resolution to support the following: The development of an application to the Community Development Block Grant (CDBG) program by the City of Amesbury. CDBG funds are available through competitive grants to municipalities for affordable housing projects, social services, economic development, and public facilities that benefit low and moderate income persons. The FY2019 grant round will involve an application seeking an amount not more than \$800,000 for City of Amesbury programs. The program will continue the success of the Housing Rehabilitation program and Social Services targeting low and moderate income households in a manner consistent with prior CDBG programs - Mayor Sponsor. Councilor McMilleon moved to approve 2019-012 as submitted. Councilor Marggraf seconded, and it was voted unanimous.
- **2018-086** An Ordinance to create a Woodsom Farm Parkland and Conservation Area – Councilors Stanganelli, Einson, and Wheeler Sponsor. Councilor Gilday moved to accept the amended version. Councilor Bartley seconded. The amended version was approved with 6 in favor, 1 abstention (Stanganelli) (7 present). Councilor McClure offered an amendment. Councilor Gilday moved to accept Councilor McClure's first amendment. Councilor McMilleon seconded. A vote was taken, and the amendment passed with 6 in favor, 1 abstention (Stanganelli). Councilor Gilday moved to amend. Councilor Marggraf seconded. A vote was taken, and the amendment passed with 6 in favor, 1 abstention (Stanganelli). COMMONWEALTH OF MASSACHUSETTS
WILLIAM FRANCIS GALVIN
SECRETARY OF THE COMMONWEALTH

WARRANT FOR THE STATE ELECTION

SS.

To the Constables of the City/Town of AMESBURY

GREETINGS:

In the name of the Commonwealth, you are hereby required to notify and warn the inhabitants of said city or town who are qualified to vote in the State Election to vote at

1, 2, 3, 4, 5, 6
(DISTRICTS)

AMESBURY HIGH SCHOOL, 5 HIGHLAND STREET
(POLLING LOCATION)

on **TUESDAY, THE SIXTH DAY OF NOVEMBER, 2018**, from 7:00 A.M. to 8:00 P.M. for the following purpose:

To cast their votes in the State Election for the candidates for the following offices and questions:

SENATOR IN CONGRESS	FOR THIS COMMONWEALTH
GOVERNOR and LIEUTENANT GOVERNOR	FOR THIS COMMONWEALTH
ATTORNEY GENERAL	FOR THIS COMMONWEALTH
SECRETARY OF STATE	FOR THIS COMMONWEALTH
TREASURER AND RECEIVER GENERAL	FOR THIS COMMONWEALTH
AUDITOR	FOR THIS COMMONWEALTH
REPRESENTATIVE IN CONGRESS	SIXTH DISTRICT
COUNCILLOR	FIFTH DISTRICT
SENATOR IN GENERAL COURT	FIRST ESSEX DISTRICT
REPRESENTATIVE IN GENERAL COURT	FIRST ESSEX DISTRICT
DISTRICT ATTORNEY	EASTERN DISTRICT
CLERK OF COURTS	ESSEX COUNTY
REGISTER OF DEEDS	ESSEX SOUTHERN DISTRICT

QUESTION 1: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives on or before May 2, 2018?

SUMMARY

This proposed law would limit how many patients could be assigned to each registered nurse in Massachusetts hospitals and certain other health care facilities. The maximum number of patients per registered nurse would vary by type of unit and level of care, as follows:

- In units with step-down/intermediate care patients: 3 patients per nurse;
- In units with post-anesthesia care or operating room patients: 1 patient under anesthesia per nurse; 2 patients post-anesthesia per nurse;

- In the emergency services department: 1 critical or intensive care patient per nurse (or 2 if the nurse has assessed each patient's condition as stable); 2 urgent non-stable patients per nurse; 3 urgent stable patients per nurse; or 5 non-urgent stable patients per nurse;
- In units with maternity patients: (a) active labor patients: 1 patient per nurse; (b) during birth and for up to two hours immediately postpartum: 1 mother per nurse and 1 baby per nurse; (c) when the condition of the mother and baby are determined to be stable: 1 mother and her baby or babies per nurse; (d) postpartum: 6 patients per nurse; (e) intermediate care or continuing care babies: 2 babies per nurse; (f) well-babies: 6 babies per nurse;
- In units with pediatric, medical, surgical, telemetry, or observational/outpatient treatment patients, or any other unit: 4 patients per nurse; and
- In units with psychiatric or rehabilitation patients: 5 patients per nurse.

The proposed law would require a covered facility to comply with the patient assignment limits without reducing its level of nursing, service, maintenance, clerical, professional, and other staff.

The proposed law would also require every covered facility to develop a written patient acuity tool for each unit to evaluate the condition of each patient. This tool would be used by nurses in deciding whether patient limits should be lower than the limits of the proposed law at any given time.

The proposed law would not override any contract in effect on January 1, 2019 that set higher patient limits. The proposed law's limits would take effect after any such contract expired.

The state Health Policy Commission would be required to promulgate regulations to implement the proposed law. The Commission could conduct inspections to ensure compliance with the law. Any facility receiving written notice from the Commission of a complaint or a violation would be required to submit a written compliance plan to the Commission. The Commission could report violations to the state Attorney General, who could file suit to obtain a civil penalty of up to \$25,000 per violation as well as up to \$25,000 for each day a violation continued after the Commission notified the covered facility of the violation. The Health Policy Commission would be required to establish a toll-free telephone number for complaints and a website where complaints, compliance plans, and violations would appear.

The proposed law would prohibit discipline or retaliation against any employee for complying with the patient assignment limits of the law. The proposed law would require every covered facility to post within each unit, patient room, and waiting area a notice explaining the patient limits and how to report violations. Each day of a facility's non-compliance with the posting requirement would be punishable by a civil penalty between \$250 and \$2,500.

The proposed law's requirements would be suspended during a state or nationally declared public health emergency.

The proposed law states that, if any of its parts were declared invalid, the other parts would stay in effect. The proposed law would take effect on January 1, 2019.

A YES VOTE would limit the number of patients that could be assigned to one registered nurse in hospitals and certain other health care facilities.

A NO VOTE would make no change in current laws relative to patient-to-nurse limits.

QUESTION 2: LAW PROPOSED BY INITIATIVE PETITION

Do you approve of a law summarized below, on which no vote was taken by the Senate or the House of Representatives on or before May 2, 2018?

SUMMARY

This proposed law would create a citizens commission to consider and recommend potential amendments to the United States Constitution to establish that corporations do not have the same Constitutional rights as human beings and that campaign contributions and expenditures may be regulated.

Any resident of Massachusetts who is a United States citizen would be able to apply for appointment to the 15-member commission, and members would serve without compensation. The Governor, the Secretary of the Commonwealth, the state Attorney General, the Speaker of the state House of Representatives, and the President of the state Senate would each appoint three members of the commission and, in making these appointments, would seek to ensure that the commission reflects a range of geographic, political, and demographic backgrounds.

The commission would be required to research and take testimony, and then issue a report regarding (1) the impact of political spending in Massachusetts; (2) any limitations on the state's ability to regulate corporations and other entities in light of Supreme Court decisions that allow corporations to assert certain constitutional rights; (3) recommendations for constitutional amendments; (4) an analysis of constitutional amendments introduced to Congress; and (5) recommendations for advancing proposed amendments to the United States Constitution.

The commission would be subject to the state Open Meeting Law and Public Records Law. The commission's first report would be due December 31, 2019, and the Secretary of the Commonwealth would be required to deliver the commission's report to the state Legislature, the United States Congress, and the President of the United States.

The proposed law states that, if any of its parts were declared invalid, the other parts would stay in effect. The proposed law would take effect on January 1, 2019.

A YES VOTE would create a citizens commission to advance an amendment to the United States Constitution to limit the influence of money in elections and establish that corporations do not have the same rights as human beings.

A NO VOTE would not create this commission.

QUESTION 3: REFERENDUM ON AN EXISTING LAW

Do you approve of a law summarized below, which was approved by the House of Representatives and the Senate on July 7, 2016?

SUMMARY

This law adds gender identity to the list of prohibited grounds for discrimination in places of public accommodation, resort, or amusement. Such grounds also include race, color, religious creed, national origin, sex, disability, and ancestry. A "place of public accommodation, resort or amusement" is defined in existing law as any place that is open to and accepts or solicits the patronage of the general public, such as hotels, stores,

restaurants, theaters, sports facilities, and hospitals. "Gender identity" is defined as a person's sincerely held gender-related identity, appearance, or behavior, whether or not it is different from that traditionally associated with the person's physiology or assigned sex at birth.

This law prohibits discrimination based on gender identity in a person's admission to or treatment in any place of public accommodation. The law requires any such place that has separate areas for males and females (such as restrooms) to allow access to and full use of those areas consistent with a person's gender identity. The law also prohibits the owner or manager of a place of public accommodation from using advertising or signage that discriminates on the basis of gender identity.

This law directs the state Commission Against Discrimination to adopt rules or policies and make recommendations to carry out this law. The law also directs the state Attorney General to issue regulations or guidance on referring for legal action any person who asserts gender identity for an improper purpose.

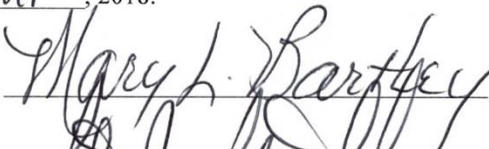

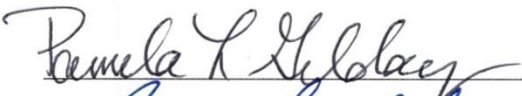

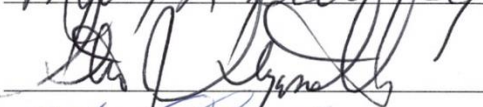

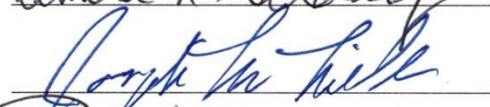

The provisions of this law governing access to places of public accommodation are effective as of October 1, 2016. The remaining provisions are effective as of July 8, 2016.

A YES VOTE would keep in place the current law, which prohibits discrimination on the basis of gender identity in places of public accommodation.

A NO VOTE would repeal this provision of the public accommodation law.

Hereof fail not and make return of this warrant with your doings thereon at the time and place of said voting.

Given under our hands this 9 day of October, 2018.

City Council of AMESBURY

(Indicate method of service of warrant.)

Constable

_____, 2018.
(month and day)

Warrant must be posted by **October 30, 2018**, (at least *seven days* prior to the **November 6, 2018** State Election).
